Admissions

Residence

Resident Students

Only students who are residents of the District may attend a District school without a tuition charge, except as otherwise provided below or in State law. A student's residence is the same as the person who has legal custody of the student.

A person asserting legal custody over a student, who is not the child's natural or adoptive parent, shall complete a signed statement, stating: (a) that he or she has assumed and exercises legal responsibility for the child, (b) the reason the child lives with him or her, other than to receive an education in the District, and (c) that he or she exercises full control over the child regarding daily educational and medical decisions in case of emergency. If the District knows the current address of the child's natural or adoptive parent, the District shall request in writing that the person complete a signed statement or affidavit stating: (a) the role and responsibility of the person with whom their child is living, and (b) that the person with whom the child is living has full control over the child regarding daily educational and medical decisions in case of emergency.

A student whose family moves out of the District during the school year will be permitted to attend school for the remainder of the year without payment of tuition.

When a student's change of residence is due to the military service obligation of the student's legal custodian, the student's residence is deemed to be unchanged for the duration of the custodian's military service obligation if the student's custodian made a written request. The District, however, is not responsible for the student's transportation to or from school.

If, at the time of enrollment, a dependent child of military personnel is housed in temporary housing located outside of the District but will be living within the District within six months after the time of initial enrollment, the child is allowed to enroll, subject to the requirements of State law, and must not be charged tuition.

Residence of Students with Disabilities

The residence of a child with a disability is determined in accordance with 105 ILCS 5/14-1.11, 5/14-1.11a, and 5/14-1.11b.

Admission of Nonresident Students Pursuant to an Agreement or Order

Nonresident students may attend District schools pursuant to:

1. A written agreement with an adjacent school district to provide for attendance by a student of that district, provided both the Superintendent or designee and the adjacent district determine that the student's health and safety will be served by such attendance.
2. A written agreement with cultural exchange organizations and institutions supported by charity to provide for attendance by foreign exchange students and nonresident pupils of charitable institutions.
3. According to an intergovernmental agreement.
4. Whenever any State or federal law or a court order mandates the acceptance of a nonresident student.

Admission of Nonresident Students to STEPS Program

Upon request from another public school district, the District will consider accepting one or more nonresident students with disabilities into the STEPS transition program, subject to the following:

- a. The District reserves the right to approve or deny the request, in the District's sole discretion, considering factors such as program capacity, whether the student's needs can be met in the program, and any other circumstances the District deems relevant.
- b. If a nonresident student is accepted, the student's home school district must enter into an intergovernmental agreement with the District, on terms acceptable to the District.
- c. The student's home school district will be required to pay tuition for the student's participation in the STEPS program.
- d. The student's home school district will be responsible for transportation for the student. The District will have no responsibility for transportation.
- e. Any such acceptance will be effective for up to one school year. The District will review the student's participation annually and determine whether to continue or discontinue the student's participation for the following school year.
- f. The District reserves the right to discontinue a nonresident student's participation in the STEPS program at any time if the program ceases to be appropriate for the student or for any other reason determined to warrant removal in the District's sole discretion.

Homeless Children

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce records normally required to establish residency. School Board policy 6:140, *Education of Homeless Children*, and its implementing administrative procedure, govern the enrollment of homeless children.

Challenging a Student's Residence Status

If the Superintendent or designee determines that a student attending school on a tuition-free basis is a nonresident of the District for whom tuition is required to be charged, he or she on behalf of the Board shall notify the person who enrolled the student of the tuition amount that is due. The notice shall detail the specific reasons why the Board believes that the student is a nonresident of the District and shall be given by certified mail, return receipt requested. The person who enrolled the student may challenge this determination and request a hearing as provided by the School Code, 105 ILCS 5/10-20.12b.

School Admissions and Student Transfers To and From Non-District Schools

Age

To be eligible for admission, a child must be 5 years old on or before September 1 of that school term. A child entering first grade must be 6 years of age on or before September 1 of that school term. Based upon an assessment of a child's readiness to attend school, the District may permit him or her to attend school prior to these dates. A child will also be allowed to attend first grade based upon an assessment of his or her readiness if he or she attended a non-public preschool, continued his or her education at that school through kindergarten, was taught in kindergarten by an appropriately licensed teacher, and will be 6 years old on or before December 31. A child with exceptional needs who qualifies for special education services is eligible for admission at 3 years of age. Early entrance to kindergarten or first grade may also be available through Board policy 6:135, *Accelerated Placement Program*.

Admission Procedure

All students must register for school each year on the dates and at the place designated by the Superintendent. Parents/guardians of students enrolling in the District for the first time must present:

1. A certified copy of the student's birth certificate. If a birth certificate is not presented, the Superintendent or designee shall notify in writing the person enrolling the student that within 30 days he or she must provide a certified copy of the student's birth certificate. A student will be enrolled without a birth certificate. When a certified copy of the birth certificate is presented, the school shall promptly make a copy for its records, place the copy in the student's permanent record, and return the certified copy to the person enrolling the child. If a person enrolling a student fails to provide a certified copy of the student's birth certificate, the Superintendent or designee shall immediately notify the local law enforcement agency, and shall also notify the person enrolling the student in writing that, unless he or she complies within 10 days, the case will be referred to the local law enforcement authority for investigation. If compliance is not obtained within that 10-day period, the Superintendent or designee shall so refer the case. The Superintendent or designee shall immediately report to the local law enforcement authority any material received pursuant to this paragraph that appears inaccurate or suspicious in form or content.
2. Proof of residence, as required by Board policy 7:60, *Residence*.
3. Proof of disease immunization or detection and the required physical examination, as required by State law and Board policy 7:100, *Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students*.

The individual enrolling a student shall be given the opportunity to voluntarily state whether the student has a parent or guardian who is a member of a branch of the U. S. Armed Forces and who is either deployed to active duty or expects to be deployed to active duty during the school year. Students who are children of active-duty military personnel transferring will be allowed to enter: (a) the same grade level in which they studied at the school from which they transferred, if the transfer occurs during the District's school year, or (b) the grade level following the last grade completed.

Foster Care Students

The Superintendent will appoint at least one employee to act as a liaison to facilitate the enrollment and transfer of records of students in the legal custody of the Illinois Department of Children and Family Services (DCFS) when enrolling in or changing schools. The District's liaison ensures that DCFS' Office of Education and Transition Services receives all written notices and records pertaining to students in the legal custody of DCFS as required by State law.

Student Transfers To and From Non-District Schools

A student may transfer into or out of the District according to State law and procedures developed by the Superintendent or designee. A student seeking to transfer into the District must serve the entire term of any suspension or expulsion when the penalty was for:

- knowingly possessing in a school building or on school grounds, a weapon as defined in the Gun Free Schools Act;
- knowingly possessing, selling, or delivering in a school building or on school grounds a controlled substance or cannabis; or
- battering a staff member of the school.

Privately sponsored exchange students on an F-1 visa may not attend school in the district.

Attendance and Truancy

Compulsory School Attendance

This policy applies to individuals who have custody or control of a child: (a) between the ages of six (on or before September 1) and 17 years (unless the child has graduated from high school), or (b) who is enrolled in any of grades kindergarten through 12 in the public school regardless of age. Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because of religious reasons, including to observe a religious holiday, for religious instruction, or because his or her religion forbids secular activity on a particular day(s) or time of day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student's absence. A valid cause for absence includes illness (including mental or behavioral health of the student), observance of a religious holiday, death in the immediate family, attendance at civic event, family emergency, other situations beyond the control of the student, other circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety, or other reason as approved by the Superintendent or designee. Students absent for a valid cause may make up missed homework and classwork assignments in a reasonable timeframe.

Absenteeism and Truancy Program

The Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and School Board policy. The program shall include but not be limited to:

1. A protocol for excusing a student from attendance who is necessarily and lawfully employed. The Superintendent or designee is authorized to determine when the student's absence is justified.
2. A protocol for excusing a student in grades 6 through 12 from attendance to sound *Taps* at a military honors funeral held in Illinois for a deceased veteran.
3. A protocol for excusing a student from attendance on a particular day(s) or at a particular time of day when his/her parent/guardian is an active-duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings.
4. A process to telephone, within two hours after the first class, the parents/guardians of students in grade 8 or below who are absent without prior parent/guardian notification.

5. A process to identify and track students who are truants, chronic or habitual truants, or truant minors as defined in 105 ILCS 5/26-2a.
6. A description of diagnostic procedures for identifying the cause(s) of a student's unexcused absenteeism, including interviews with the student, his or her parent(s)/guardian(s), and staff members or other people who may have information about the reasons for the student's attendance problem.
7. The identification of supportive services that may be offered to truant, chronically truant, or chronically absent students, including parent-teacher conferences, student and/or family 7:70 Page 2 of 2 counseling, or information about community agency services. See Board policy 6:110, *Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program*.
8. A process for the collection and review of chronic absence data and to:
 1. Determine what systems of support and resources are needed to engage chronically absent students and their families, and
 2. Encourage the habit of daily attendance and promote success.
9. Reasonable efforts to provide ongoing professional development to teachers, administrators, Board members, school resource officers, and staff on the appropriate and available supportive services for the promotion of student attendance and engagement.
10. A process to request the assistance and resources of outside agencies, such as, the juvenile officer of the local police department or the truant office of the appropriate Regional Office of Education, if truancy continues after supportive services have been offered.
11. A protocol for cooperating with non-District agencies including County or municipal authorities, the Regional Superintendent, truant officers, the Community Truancy Review Board, and a comprehensive community-based youth service agency. Any disclosure of school student records must be consistent with Board policy 7:340, *Student Records*, as well as State and federal law concerning school student records.
12. An acknowledgement that no punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against a truant minor for his or her truancy unless available supportive services and other school resources have been provided to the student.
13. The criteria to determine whether a student's non-attendance is due to extraordinary circumstances shall include economic or medical necessity or family hardship and such other criteria that the Superintendent believes qualifies.
14. A process for a 17-year-old resident to participate in the District's various programs and resources for truants. The student must provide documentation of his/her dropout status for the previous 6 months. 15. A process for the temporary exclusion of a student 17 years of age or older for failing to meet minimum attendance standards according to provisions in State law. A parent/guardian has the right to appeal a decision to exclude a student.

Monitoring

Pursuant to State law and policy 2:240, *Board Policy Development*, the Board updates this policy at least once every two years. The Superintendent or designee shall assist the Board with its update.

Discipline

Conduct Code for Participants in Extracurricular Activities

The Superintendent or designee, using input from coaches and sponsors of extracurricular activities, shall develop a conduct code for all participants in extracurricular activities consistent with School Board policy and the rules adopted by any association in which the School District maintains a membership. The conduct code shall: (1) require participants in extracurricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants, that failure to abide by it could result in discipline, up to and including removal from the activity. Participants who violate the conduct code will be allowed to give an explanation before being progressively disciplined. The conduct code shall be reviewed by the Building Principal periodically.

Participants in extracurricular activities must abide by the conduct code for the activity and Board policy 7:190, *Student Behavior*. All coaches and sponsors of extracurricular activities shall annually review the rules of conduct with participants and provide participants with a copy. In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Performance Enhancing Drug Testing of High School Student Athletes

State law requires the Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance enhancing substance on its banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition. IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board policy 7:190, *Student Behavior*.

Expulsion Procedures

The Superintendent or designee shall implement expulsion procedures that provide, at a minimum, for the following:

1. Before a student may be expelled, the student and his or her parent(s)/guardian(s) shall be provided a written request to appear at a hearing to determine whether the student should be expelled. The request shall be sent by registered or certified mail, return receipt requested. The request shall:
 - a. Include the time, date, and place for the hearing.
 - b. Briefly describe what will happen during the hearing.
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to recommend expulsion.
 - d. List the student's prior suspension(s).
 - e. State that the School Code allows the School Board to expel a student for a definite period of time not to exceed 2 calendar years, as determined on a case-by-case basis.
 - f. Ask that the student or parent(s)/guardian(s) or attorney inform the Superintendent or Board Attorney if the student will be represented by an attorney and, if so, the attorney's name and contact information.

2. Unless the student and parent(s)/guardian(s) indicate that they do not want a hearing or fail to appear at the designated time and place, the hearing will proceed. It shall be conducted by the Board or a hearing officer appointed by it. If a hearing officer is appointed, he or she shall report to the Board the evidence presented at the hearing and the Board shall take such final action as it finds appropriate. Whenever there is evidence that mental illness may be the cause for the recommended expulsion, the Superintendent or designee shall invite a representative from a local mental health agency to consult with the Board.
3. During the expulsion hearing, the Board or hearing officer shall hear evidence concerning whether the student is guilty of the gross disobedience or misconduct as charged. School officials must provide: (1) testimony of any other interventions attempted and exhausted or of their determination that no other appropriate and available interventions were available for the student, and (2) evidence of the threat or disruption posed by the student. The student and his or her parent(s)/guardian(s) may be represented by counsel, offer evidence, present witnesses, cross-examine witnesses who testified, and otherwise present reasons why the student should not be expelled. After presentation of the evidence or receipt of the hearing officer's report, the Board shall decide the issue of guilt and take such action as it finds appropriate.
4. If the Board acts to expel the student, its written expulsion decision shall:
 - a. Detail the specific reason why removing the student from his or her learning environment is in the best interest of the school.
 - b. Provide a rationale for the specific duration of the recommended expulsion.
 - c. Document how school officials determined that all behavioral and disciplinary interventions have been exhausted by specifying which interventions were attempted or whether school officials determined that no other appropriate and available interventions existed for the student.
 - d. Document how the student's continuing presence in school would (1) pose a threat to the safety of other students, staff, or members of the school community, or (2) substantially disrupt, impede, or interfere with the operation of the school.
5. Upon expulsion, the District may refer the student to appropriate and available support services.

Suspension Procedures

Out-of-School Suspension

The Superintendent or designee shall implement suspension procedures that provide, at a minimum, for each of the following:

1. A conference during which the charges will be explained and the student will be given an opportunity to respond to the charges before he or she may be suspended.
2. A pre-suspension conference is not required and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. An attempted phone call to the student's parent(s)/guardian(s).
4. A written notice of the suspension to the parent(s)/guardian(s) and the student, which shall:
 - a. Provide notice to the parent(s)/guardian(s) of their child's right to a review of the suspension;
 - b. Include information about an opportunity to make up work missed during the suspension for equivalent academic credit;
 - c. Detail the specific act of gross disobedience or misconduct resulting in the decision to suspend;

- d. Provide rationale or an explanation of how the chosen number of suspension days will address the threat or disruption posed by the student or his or her act of gross disobedience or misconduct; and
 - e. Depending upon the length of the out-of-school suspension, include the following applicable information:
 - i. For a suspension of 3 school days or less, an explanation that the student's continuing presence in school would either pose:
 - a) A threat to school safety, or
 - b) A disruption to other students' learning opportunities.
 - ii. For a suspension of 4 or more school days, an explanation:
 - a) That other appropriate and available behavioral and disciplinary interventions have been exhausted,
 - b) As to whether school officials attempted other interventions or determined that no other interventions were available for the student, and
 - c) That the student's continuing presence in school would either:
 - i) Pose a threat to the safety of other students, staff, or members of the school community, or
 - ii) Substantially disrupt, impede, or interfere with the operation of the school.
 - iii. For a suspension of 5 or more school days, the information listed in section 4.e.ii., above, along with documentation by the Superintendent or designee determining what, if any, appropriate and available support services will be provided to the student during the length of his or her suspension.
5. A summary of the notice, including the reason for the suspension and the suspension length, must be given to the Board by the Superintendent or designee.
 6. Upon request of the parent(s)/guardian(s), a review of the suspension shall be conducted by the Board or a hearing officer appointed by the Board. At the review, the student's parent(s)/guardian(s) may appear and discuss the suspension with the Board or its hearing officer and may be represented by counsel. Whenever there is evidence that mental illness may be the cause for the suspension, the Superintendent or designee shall invite a representative from a local mental health agency to consult with the Board. After presentation of the evidence or receipt of the hearing officer's report, the Board shall take such action as it finds appropriate. If the suspension is upheld, the Board's written suspension decision shall specifically detail items (a) and (e) in number 4, above.

Prevention of and Response to Bullying, Intimidation, and Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important District goals.

Bullying on the basis of actual or perceived race, color, national origin, military status, unfavorable discharge status from the military service, sex, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic **is prohibited** in each of the following situations:

1. During any school-sponsored education program or activity.

2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a nonschool-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by a school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school. This item (4) applies only in cases in which a school administrator or teacher receives a report that bullying through this means has occurred and it does not require a district or school to staff or monitor any nonschool-related activity, function, or program.

Definitions from 105 ILCS 5/27-23.7

2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or

Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Restorative measures means a continuum of school-based alternatives to exclusionary discipline, such as suspensions and expulsions, that: (i) are adapted to the particular needs of the school and community, (ii) contribute to maintaining school safety, (iii) protect the integrity of a positive and productive learning climate, (iv) teach students the personal and interpersonal skills they will need to be successful in school and society, (v) serve to build and restore relationships among students, families, schools, and communities, (vi) reduce the likelihood of future disruption by balancing accountability with an understanding of students' behavioral health needs in order to keep students in school, and (vii) increase student accountability if the incident of bullying is based on religion, race, ethnicity, or any other category that is identified in the III. Human Rights Act.

School personnel means persons employed by, on contract with, or who volunteer in a school district, including without limitation school and school district administrators, teachers, school social workers, school counselors, school psychologists, school nurses, cafeteria workers, custodians, bus drivers, school resource officers, and security guards.

Bullying Prevention and Response Plan

The Superintendent or designee shall develop and maintain a bullying prevention and response plan that advances the District’s goal of providing all students with a safe learning environment free of bullying and harassment. This plan must be consistent with the following requirements:

1. Using the definition of bullying as provided in this policy, the Superintendent or designee shall emphasize to the school community that: (1) the District prohibits bullying, and (2) all students should conduct themselves with a proper regard for the rights and welfare of other students. This may include a process for commending or acknowledging students for demonstrating appropriate behavior.
2. Bullying is contrary to State law and the policy of this District. However, nothing in the District’s bullying prevention and response plan is intended to infringe upon any right to exercise free expression or the free exercise of religion or religiously based views protected under the First Amendment to the U.S. Constitution or under Section 3 of Article I of the Illinois Constitution.
3. Students are encouraged to immediately report bullying. A report may be made orally or in writing to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any staff member with whom the student is comfortable speaking. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the District named officials or any staff member. The District named officials and all staff members are available for help with a bully or to make a report about bullying. Anonymous reports are also accepted; however, this shall not be construed to permit formal disciplinary action solely on the basis of an anonymous report.

5. The Superintendent or designee shall promptly investigate and address reports of bullying, by, among other things:
 - a. Making all reasonable efforts to complete the investigation within 10 school days after the date the report of the incident of bullying was received and taking into consideration additional relevant information received during the course of the investigation about the reported incident of bullying.
 - b. Involving appropriate school support personnel and other staff persons with knowledge, experience, and training on bullying prevention, as deemed appropriate, in the investigation process.

6. The Superintendent or designee shall use interventions to address bullying, which may include, but are not limited to, school social work services, restorative measures, social-emotional skill building, counseling, school psychological services, and community-based services.
7. A reprisal or retaliation against any person who reports an act of bullying **is prohibited**. Any person's act of reprisal or retaliation will be subject to disciplinary action, up to and including discharge with regard to employees, or suspension and/or expulsion with regards to students.
8. A student will not be punished for reporting bullying or supplying information, even if the District's investigation concludes that no bullying occurred. However, a person who is found to have falsely accused another of bullying, as a means of retaliation, as a means of bullying, or provided false information will be treated as either: (a) bullying, (b) student discipline up to and including suspension and/or expulsion, and/or (c) both (a) and (b) for purposes of determining any consequences or other appropriate remedial actions.
9. The District's bullying prevention and response plan is based on the engagement of a range of school stakeholders, including students and parents/guardians.

10. The Superintendent or designee shall post this policy on the District's website, if any, and include it in the student handbook, and, where applicable, post it where other policies, rules, and standards of conduct are currently posted. The policy must be distributed annually to parents/guardians, students, and school personnel (including new employees when hired), and must also be provided periodically throughout the school year to students and faculty.
11. Pursuant to State law and policy 2:240, Board Policy Development, the Board monitors this policy every two years by conducting a review and re-evaluation of this policy to make any necessary and appropriate revisions. The Superintendent or designee shall assist the Board with its re-evaluation and assessment of this policy's outcomes and effectiveness. Updates to this policy will reflect any necessary and appropriate revisions. This process shall include, without limitation:
 - a. The frequency of victimization;
 - b. Student, staff, and family observations of safety at a school;
 - c. Identification of areas of a school where bullying occurs;
 - d. The types of bullying utilized; and
 - e. Bystander intervention or participation.

The evaluation process may use relevant data and information that the District already collects for other purposes. Acceptable documentation to satisfy the re-evaluated policy submission include one of the following:

2. If no revisions are deemed necessary, a copy of board minutes indicating that the policy was re-evaluated and no changes were deemed to be necessary; or

The Superintendent or designee must post the information developed as a result of the policy re-evaluation on the District's website, or if a website is not available, the information must be provided to school administrators, Board members, school personnel, parents/guardians, and students. Reviews and re-evaluations in years they are due must be submitted to ISBE by September 30.

13. The Superintendent or designee shall fully inform staff members of the District's goal to prevent students from engaging in bullying and the measures being used to accomplish it. This includes each of the following:

- a. Communicating the District's expectation and State law requirement that teachers and other certificated or licensed employees maintain discipline.

Search and Seizure

In order to maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as, lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there. This paragraph applies to student vehicles parked on school property. In addition, Building Principals shall require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle, and personal effects therein, without notice and without suspicion of wrongdoing.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Students

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, book bags, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objective and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

When feasible, the search should be conducted as follows:

1. Outside the view of others, including students,
2. In the presence of a school administrator or adult witness, and
3. By a certificated employee or liaison police officer of the same sex as the student.

Immediately following a search, a written report shall be made by the school authority who conducted the search, and given to the Superintendent.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Notification Regarding Student Accounts or Profiles on Social Networking Websites

The Superintendent or designee shall notify students and their parents/guardians of each of the following in accordance with the Right to Privacy in the School Setting Act, 105 ILCS 75/:

2. School officials may conduct an investigation or require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates a school disciplinary rule or policy. In the course of an investigation, the student may be required to share the content that is reported in order to allow school officials to make a factual determination.

Student Behavior

The goals and objectives of this policy are to provide effective discipline practices that:

(1) ensure the safety and dignity of students and staff; (2) maintain a positive, weapons-free, and drug-free learning environment; (3) keep school property and the property of others secure; (4) address the causes of a student's misbehavior; and (5) teach students positive behavioral skills to become independent, self-disciplined citizens in the school community and society.

In the absence of a reasonable belief that an emergency exists, calling emergency responders (such as calling 911); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus, or at any school activity.
15. Being absent without a recognized excuse; State law and School Board policy regarding truancy control will be used with chronic and habitual truants.
16. Being involved with any public school fraternity, sorority, or secret society, by: (a) being a member; (b) promising to join; (c) pledging to become a member; or (d) soliciting any other person to join, promise to join, or be pledged to become a member.
17. Being involved in gangs or gang-related activities, including displaying gang symbols or paraphernalia.
18. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, vandalism, and hazing.
19. Making an explicit threat on an Internet website against a school employee, a student, or any school-related personnel if the Internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the

safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.

20. Operating an unmanned aircraft system (UAS) or drone for any purpose on school grounds or at any school event unless granted permission by the Superintendent or designee.
21. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

For purposes of this policy, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; or (d) at any location on school property or at a school-sponsored event.

Efforts, including the use of positive interventions and supports, shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. The Superintendent or designee shall ensure that the parent/guardian of a student who engages in aggressive behavior is notified of the incident. The failure to provide such notification does not limit the Board's authority to impose discipline, including suspension or expulsion, for such behavior.

No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out voluntarily due to behavioral or academic difficulties. A range of disciplinary measures may include, without limitation, any of the following:

1. Notifying parent(s)/guardian(s).
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen, or damaged property.
6. In-school suspension. The Building Principal or designee shall ensure that the student is properly supervised.
7. After-school study or Saturday study provided the student's parent/guardian has been notified. If transportation arrangements cannot be agreed upon, an alternative disciplinary measure must be used. The student must be supervised by the detaining teacher or the Building Principal or designee.
8. Community service with local public and nonprofit agencies that enhances community efforts to meet human, educational, environmental, or public safety needs. The District will not provide transportation. School administration shall use this option only as an alternative to another disciplinary measure, giving the student and/or parent/guardian the choice.
9. Seizure of contraband; confiscation and temporary retention of personal property that was used to violate this policy or school disciplinary rules.
10. Suspension of bus riding privileges in accordance with Board policy 7:220, *Bus*

Conduct.

11. Out-of-school suspension from school and all school activities in accordance with Board policy 7:200, *Suspension Procedures*. A student who has been suspended may also be restricted from being on school grounds and at school activities.
12. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years in accordance with Board policy 7:210, *Expulsion Procedures*. A student who has been expelled may also be restricted from being on school grounds and at school activities.
13. Transfer to an alternative program if the student is expelled or otherwise qualifies for the transfer under State law. The transfer shall be in the manner provided in Article 13A or 13B of the School Code.
14. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, including but not limited to, illegal drugs (controlled substances), look-alikes, alcohol, or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension and expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion. Students enrolled in the District's State-funded preschool program(s) may be temporarily removed or transitioned to a new program in accordance with federal and State law. State law prohibits the expulsion of students from the program(s).

Corporal punishment is prohibited. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Isolated Time Out, Time Out, and Physical Restraint

Neither isolated time out, time out, nor physical restraint shall be used to discipline or punish a student. Time Out and Physical Restraint are only authorized for use as permitted in 105 ILCS 5/10-20.33, State Board of Education rules (23 Ill.Admin.Code §§ 1.280, 1.285), and the District's procedure(s).

Weapons

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of at least one calendar year but not more than two calendar years:

1. A firearm, meaning any gun, rifle, shotgun, or weapon as defined by Section 921 of Title 18 of the United States Code (18 U.S.C. § 921), firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act (430 ILCS 65/), or firearm as defined in Section 24-1 of the Criminal Code of 1961 (720 ILCS 5/24-1). The expulsion period under this subdivision (1) may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis.
2. A knife, brass knuckles, or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "look-alikes" of any firearm as defined above. The expulsion requirement under this subdivision (2) may be modified by the Superintendent, and the Superintendent's determination may be modified by the Board on a case-by-case basis.

The Superintendent or designee may grant an exception to this policy, upon the prior

request of an adult supervisor, for students in theatre, cooking, ROTC, martial arts, and similar programs, whether or not school-sponsored, provided the item is not equipped, nor intended, to do bodily harm.

This policy's prohibitions concerning weapons apply regardless of whether: (1) a student is licensed to carry a concealed firearm, or (2) the Board permits visitors, who are licensed to carry a concealed firearm, to store a firearm in a locked vehicle in a school parking area.

Re-Engagement of Returning Students

The Superintendent or designee shall maintain a process to facilitate the reengagement of students who are returning from an out-of-school suspension, expulsion, or an alternative school setting. The goal of re-engagement shall be to support the student's ability to be successful in school following a period of exclusionary discipline and shall include the opportunity for students who have been suspended to complete or make up work for equivalent academic credit.

Required Notices

A school staff member shall immediately notify the office of the Building Principal in the event that he or she: (1) observes any person in possession of a firearm on or around school grounds; however, such action may be delayed if immediate notice would endanger students under his or her supervision, (2) observes or has reason to suspect that any person on school grounds is or was involved in a drug-related incident, or (3) observes a battery committed against any staff member. Upon receiving such a report, the Building Principal or designee shall immediately notify the local law enforcement agency, IL. Dept. of State Police (ISP), and any involved student's parent/guardian. "School grounds" includes modes of transportation to school activities and any public way within 1000 feet of the school, as well as school property itself.

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure, other than suspension, expulsion, corporal punishment, or in-school suspension, that is appropriate and in accordance with the policies and rules on student discipline. Teachers, other certificated [licensed] educational employees, and other persons providing a related service for or with respect to a student, may use reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense or defense of property. Teachers may temporarily remove students from a classroom for disruptive behavior.

The Superintendent, Building Principal, Assistant Building Principal, or Dean of Students is authorized to impose the same disciplinary measures as teachers and may suspend students guilty of gross disobedience or misconduct from school (including all school functions) and from riding the school bus, up to 10 consecutive school days, provided the appropriate procedures are followed. The Board may suspend a student from riding the bus in excess of 10 school days for safety reasons.

Student Handbook

The Superintendent, with input from the parent-teacher advisory committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall be presented annually to the Board for its review and approval.

A student handbook, including the District disciplinary policies and rules, shall be distributed to the students' parents/guardians within 15 days of the beginning of the school year or a student's enrollment.

Right to Privacy in the School Setting Act

As required by 105 ILCS 75/15, the School District hereby provides notice that a school may request or require a student to provide a password or other related account information in order to gain access to the student's account or profile on a social networking website if the school has reasonable cause to believe that the student's account on a social networking website contains evidence that the student has violated a school disciplinary rule or policy.

Waiver of Student Fees

The Superintendent will recommend to the School Board a schedule of fees, if any, to be charged students for the use of textbooks, consumable materials, extracurricular activities, and other school student fees. Students must also pay fines for the loss of or damage to school books or other school-owned materials.

Fees for textbooks, other instructional materials, and driver education, as well as fines for the loss or damage of school property are waived for students who meet the eligibility criteria for a waiver as described in this policy. In order that no student is denied educational services or academic credit due to the inability of parents/guardians to pay student fees and fines, the Superintendent will recommend to the Board which additional fees and fines, if any, the District will waive for students who meet the eligibility criteria for a waiver.

Notification

The Superintendent shall ensure that a notice of waiver applicability is provided to parents/guardians with every bill for fees and/or fines, and that applications for waivers are widely available and distributed according to State law and Ill. State Board of Education (ISBE) rule and that provisions for assisting parents/guardians in completing the application are available.

Eligibility Criteria

A student shall be eligible for a fee and fine waiver when:

1. The student currently lives in a household that meets the same income guidelines, with the same limits based on household size, that are used for the federal free meals program;

2. The student's parents/guardians are veterans or active-duty military personnel with income at or below 200% of the federal poverty line; or
3. The student is homeless, as defined in the McKinney-Vento Homeless Assistance Act (42 U.S.C. §11434a).

The Superintendent or designee will give additional consideration where one or more of the following factors are present:

- Illness in the family;
- Unusual expenses such as fire, flood, storm damage, etc.;
- Unemployment;
- Emergency situations;
- When one or more of the parents/guardians are involved in a work stoppage.

Verification

The Superintendent or designee shall establish a process for determining a student's eligibility for a waiver of fees and fines in accordance with State law requirements.

If a student receiving a waiver is found to be no longer eligible during the school year, the Superintendent or designee shall notify the student's parent/guardian and charge the student a prorated amount based upon the number of school days remaining in the school year.

Determination and Appeal

Within 30 calendar days after the receipt of a waiver request, the Superintendent or designee shall mail a notice to the parent/guardian whenever a waiver request is denied. The denial notice shall include: (1) the reason for the denial, (2) the process and timelines for making an appeal, and (3) a statement that the parent/guardian may reapply for a waiver any time during the school year if circumstances change. If the denial is appealed, the District shall follow the procedures for the resolution of appeals as provided in the ISBE rule on waiver of fees.

Free and Reduced-Price Food Services

Notice

The Superintendent shall be responsible for implementing the District's free and reduced-price food services policy and all applicable programs.

Eligibility Criteria and Selection of Children

A student's eligibility for free and reduced-price food services shall be determined by the income eligibility guidelines, family-size income standards, set annually by the U.S. Department of Agriculture and distributed by the Illinois State Board of Education. From time to time, the income eligibility guidelines and standards may not be necessary when reimbursements for students' free breakfasts and lunches are claimed through the U.S. Depts. Of Agriculture and Education's Community Eligibility Option (CEO). When claiming the CEO, the District will follow its requirements.

Notification

At the beginning of each school year, by letter, the District shall notify students and their parents/guardians of: (1) eligibility requirements for free and reduced-price food service; (2) the application process; (3) the name and telephone number of a contact person for the program; and (4) other information required by federal law. The Superintendent shall provide the same information to: (1) informational media, the local unemployment office, and any major area employers contemplating layoffs; and (2) the District's website (if applicable), all school newsletters, or students' registration materials. Parents/guardians enrolling a child in the District for the first time, any time during the school year, shall receive the eligibility information.

Nondiscrimination Assurance

The District shall avoid publicly identifying students receiving free or reduced-price meals and shall use methods for collecting meal payments that prevent identification of children receiving assistance.

Appeal

A family may appeal the District's decision to deny an application for free and reduced-price food services or to terminate such services as outlined by the U.S. Department of Agriculture in 7 C.F.R. §245.7, Determining Eligibility for Free and Reduced-Price Meals and Free Milk in Schools. The Superintendent shall establish a hearing procedure for adverse eligibility decisions and provide by mail a copy of them to the family. The District may also use these procedures to challenge a child's continued eligibility for free or reduced-price meals or milk.

During an appeal, students previously receiving food service benefits shall not have their benefits terminated. Students who were denied benefits shall not receive benefits during the appeal.

The Superintendent shall keep on file for a period of 3 years a record of any appeals made and the hearing record. The District shall also maintain accurate and complete records showing the data and method used to determine the number of eligible students served free and reduced-price food services. These records shall be maintained for 3 years.

School Visitation Rights Act

Pursuant to the School Visitation Rights Act, parent/guardians are notified that an employer must grant an employee leave of up to 8 hours during any school year, no more than 4 hours of which may be taken on any given day, to attend school conferences or classroom activities related to the employee's child if the conference or classroom activities cannot be scheduled during nonwork hours; however, no leave may be taken unless the employee has exhausted all accrued vacation leave, personal leave, compensatory leave and any other leave that may be granted to the employee except sick leave and disability leave. Before arranging attendance at the conference or activity, the employee must provide the employer with a written request for leave at least 7 days in advance of the time the employee is required to utilize the visitation right. In emergency situations, no more than 24 hours' notice shall be required. The employee must consult with the employer to schedule the leave so as not to disrupt unduly the operations of the employer. Letters verifying parents'/guardians' participation in school conferences or other activities are available from the school office upon request.

Conduct on School Property

The following definitions apply to this policy:

School property - District and school buildings, grounds, and parking areas; vehicles used for school purposes; and any location used for a School Board meeting, school athletic event, or other school-sponsored or school-sanctioned events or activities.

Visitor - Any person other than an enrolled student or District employee.

All visitors to school property are required to report to the Building Principal's office and receive permission to remain on school property. Visitors will pre-arrange visits to the school with the building principal at least 24 hours prior to the visit. Absent unusual circumstances previously discussed with the building principal, school visits will be limited to 1 hour per day. School visits will generally be limited to adults. Parents should avoid visiting school accompanied by siblings or other children. All visitors must sign a visitors' log, show identification, and wear a visitor's badge. School visits to individual classrooms should generally be made only when the regularly assigned teacher is present. School and classroom visits must not be disruptive or in any way interfere with the instructional program. All visits and visitors will be subject to the authority of the building principal, who may restrict or limit visits, or visitors as he/she considers necessary.

When leaving the school, visitors must return their badge. On those occasions when large groups of parents/guardians and friends, and/or community members are invited onto school property or when community members are attending Board meetings, visitors are not required to sign in but must follow school officials' instructions. Persons on school property without permission will be directed to leave and may be subject to criminal prosecution.

Except as provided in the next paragraph, any person wishing to confer with a staff member should contact that staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period.

Requests to access a school building, facility, and/or educational program, or to interview personnel or a student for purposes of assessing the student's special education needs, should be made at the appropriate building. Access shall be facilitated according to guidelines from the Superintendent or designee.

The School District expects mutual respect, civility, and orderly conduct among all people on school property or at a school event. No person on school property or at a school event (including visitors, students, and employees) shall perform any of the following acts:

1. Strike, injure, threaten, harass, or intimidate a staff member, a Board member, sports official or coach, or any other person.
2. Behave in an unsportsmanlike manner, or use vulgar or obscene language.
3. Unless specifically permitted by State law, possess a weapon, any object that can reasonably be considered a weapon or looks like a weapon, or any dangerous device.
4. Damage or threaten to damage another's property.
5. Damage or deface school property.
6. Violate any Illinois law, or town or county ordinance.
7. Smoke or otherwise use tobacco products.
8. Distribute, consume, use, possess, or be impaired by or under the influence of an alcoholic beverage, cannabis, other lawful product, or illegal drug.
9. Be present when the person's alcoholic beverage, cannabis, other lawful product, or illegal drug consumption is detectable, regardless of when and/or where the use occurred.
10. Use or possess medical cannabis, unless he or she has complied with policy 7:270, *Administering Medicines to Students*, implementing *Ashley's Law*.
11. Impede, delay, disrupt, or otherwise interfere with any school activity or function (including using cellular phones in a disruptive manner).
12. Enter upon any portion of school premises at any time for purposes other than those that are lawful and authorized by the Board.
13. Operate a motor vehicle: (a) in a risky manner, (b) in excess of 20 miles per hour, or (c) in violation of an authorized District employee's directive.
14. Engage in any risky behavior, including roller-blading, roller-skating, or skateboarding.
15. Violate other District policies or regulations, or a directive from an authorized security officer or District employee.
16. Engage in any conduct that interferes with, disrupts, or adversely affects the District or a School function.

Convicted Child Sex Offender

State law prohibits a child sex offender from being present on school property or loitering within 500 feet of school property when persons under the age of 18 are present, unless the offender is:

1. A parent/guardian of a student attending the school and has notified the Building Principal of his or her presence at the school for the purpose of: (i) attending a conference at the school with school personnel to discuss the progress of his or her child academically or socially, (ii) participating in child review conferences in which evaluation and placement

decisions may be made with respect to his or her child regarding special education services, or (iii) attending conferences to discuss other student issues concerning his or her child such as retention and promotion; or

2. Has permission to be present from the Board, Superintendent, or Superintendent's designee. If permission is granted, the Superintendent or Board President shall provide the details of the offender's upcoming visit to the Building Principal.

In all cases, the Superintendent, or designee who is a certified employee, shall supervise a child sex offender whenever the offender is in a child's vicinity.

Exclusive Bargaining Representative Agent

Please refer to the following current applicable collective bargaining agreement(s):

For employees whose collective bargaining agreement does not address this subject:

Upon notifying the Building Principal's office, authorized agents of an exclusive bargaining representative will be provided reasonable access to employees in the bargaining unit they represent in accordance with State law. Such access shall be conducted in a manner that will not impede the normal operations of the District.

Enforcement

Any staff member may request identification from any person on school property; refusal to provide such information is a criminal act. The Building Principal or designee shall seek the immediate removal of any person who refuses to provide requested identification.

Any person who engages in conduct prohibited by this policy may be ejected from school property. The person is also subject to being denied admission to school events or meetings for up to one calendar year.

Procedures to Deny Future Admission to School Events or Meetings

Before any person may be denied admission to school events or meetings as provided in this policy, the person has a right to a hearing before the Board. The Superintendent may refuse the person admission pending such hearing. The Superintendent or designee must provide the person with a hearing notice, delivered or sent by certified mail with return receipt requested, at least 10 days before the Board hearing date. The hearing notice must contain:

1. The date, time, and place of the Board hearing;
2. A description of the prohibited conduct;
3. The proposed time period that admission to school events will be denied; and
4. Instructions on how to waive a hearing.

Emergency Closings

District 204 will close schools when, in the opinion of the Superintendent or his/her designee, emergency/hazardous conditions exist. Such action will be taken only when it is apparent that such emergency conditions might seriously jeopardize the health and/or safety of the students. The State of Illinois has made available the option for school districts to hold remote learning days instead of canceling school when there is severe weather. Our district may use this option, if needed. If severe weather would prevent our schools from opening, we will announce a remote learning day the same way we have informed you in the past of weather-related school closings.

In cases of bad weather or dangerous road conditions, school closings or early dismissals are announced through a phone call to parents, on the district's website at <http://www.ipdsd.org> and

through X @ipspd204. You can also tune your radio or television to a local station. IPSD 204 uses the following stations to inform parents of such closings as quickly and as widely as possible:

Radio

WGN 720 AM
WBBM 780 AM

Television

CBS Channel 2
WMAQ Channel 5
WLS Channel 7
WGN Channel 9
FOX Channel 32
CLTV -- Cable

Please be aware that while closing information is given to the stations as quickly as possible, it is at the discretion of each station to decide when and whether it airs the notifications.

Parents may find out about their child's specific school by calling the Emergency Closing Center Hotline at 1-847-238-1234. Begin by dialing the Hotline number, then enter the school's main phone number, beginning with the area code. Information for additional schools can be obtained by staying on the line and entering the area code and the main number of the school. Parents can also check the Emergency Closing Center's web site at: <http://www.emergencyclosingcenter.com>.

Please avoid calling the schools during emergency situations. This seriously over-loads phone lines and makes it almost impossible to make vital outgoing calls.

Employee Ethics; Code of Professional Conduct; and Conflict of Interest

All District employees are expected to maintain high standards in their job performance, demonstrate integrity and honesty, be considerate and cooperative, and maintain professional and appropriate relationships with students, parents/guardians, staff members, and others.

The Superintendent or designee shall provide this policy to all District employees and students and/or parents/guardians in their respective handbooks, and ensure its posting on the District's website, if any.

Professional and Appropriate Conduct

Professional and appropriate employee conduct are important Board goals that impact the quality of a safe learning environment and the school community, increasing students' ability to learn and the District's ability to educate. To protect students from sexual misconduct by employees, and employees from the appearance of impropriety, State law also recognizes the importance for District employees to constantly maintain professional and appropriate relationships with students by following established expectations and guidelines for employee-student boundaries. Many breaches of employee-student boundaries do not rise to the level of criminal behavior but do pose a potential risk to student safety and impact the quality of a safe learning environment. Repeated violations of employee-student boundaries may indicate the grooming of a student for sexual abuse. As bystanders, employees may know of concerning behaviors that no one else is aware of, so their training on: (1) preventing, recognizing, reporting, and responding to child sexual abuse and grooming behavior; (2) this policy; and (3) federal and state reporting requirements is essential to maintaining the Board's goal of professional and appropriate conduct.

The Superintendent or designee shall identify employee conduct standards that define appropriate employee-student boundaries, provide training about them, and monitor the District's employees for violations of employee-student boundaries. The employee conduct standards will require that, at a minimum:

1. Employees who are governed by the Code of Ethics for Illinois Educators, adopted by the Ill. State Board of Education (ISBE), will comply with its incorporation by reference into this policy.
2. Employees are trained on educator ethics, child abuse, grooming behaviors, and employee-student boundary violations as required by law and policies 2:265, Title IX Sexual Harassment Grievance Procedure; 4:165, Awareness and Prevention of Child Sexual Abuse and Grooming Behaviors; 5:90, Abused and Neglected Child Reporting; and 5:100, Professional Learning Program.
3. Employees maintain professional relationships with students, including maintaining employee-student boundaries based upon students' ages, grade levels, and developmental levels and following District-established guidelines for specific situations, including but not limited to:
 - a. Transporting a student;
 - b. Taking or possessing a photo or video of a student; and
 - c. Meeting with a student or contacting a student outside the employee's professional role.
4. Employees report prohibited behaviors and/or boundary violations pursuant to Board policies 2:260, Uniform Grievance Procedure; 2:265, Title IX Sexual Harassment Grievance Procedure; and 5:90, Abused and Neglected Child Reporting.
5. Discipline up to and including dismissal will occur for any employee who violates an employee conduct standard or engages in any of the following:
 - a. Violates expectations and guidelines for employee-student boundaries.
 - b. Sexually harasses a student.
 - c. Willfully or negligently fails to follow reporting requirements of the Abused and Neglected Child Reporting Act (325 ILCS 5/), Title IX of the Education Amendments of 1972 (20 U.S.C. §1681 et seq.), or the Elementary and Secondary Education Act (20 U.S.C. § 7926).
 - d. Engages in grooming as defined in 720 ILCS 5/11-25.
 - e. Engages in grooming behaviors. Prohibited grooming behaviors include, at a minimum, sexual misconduct. Sexual misconduct is any act, including but not limited to, any verbal, nonverbal, written, or electronic communication or physical activity, by an employee with direct contact with a student, that is directed toward or with a student to establish a romantic or sexual relationship with the student. Examples include, but are not limited to:
 - i. A sexual or romantic invitation.
 - ii. Dating or soliciting a date.
 - iii. Engaging in sexualized or romantic dialog.
 - iv. Making sexually suggestive comments that are directed toward or with a student.
 - v. Self-disclosure or physical exposure of a sexual, romantic, or erotic nature.
 - vi. A sexual, indecent, romantic, or erotic contact with the student.

Statement of Economic Interests

The following employees must file a Statement of Economic Interests as required by the Ill. Governmental Ethics Act:

1. Superintendent;
2. Building Principal;
3. Head of any department;
4. Any employee who, as the District's agent, is responsible for negotiating one or more contracts, including collective bargaining agreement(s), in the amount of \$1,000 or greater;
5. Hearing officer;
6. Any employee having supervisory authority for 20 or more employees; and
7. Any employee in a position that requires an administrative or a chief school business official endorsement.

Ethics and Gift Ban

Board policy 2:105, Ethics and Gift Ban, applies to all District employees. Students shall not be used in any manner for promoting a political candidate or issue.

Prohibited Interests; Conflict of Interest; and Limitation of Authority

In accordance with 105 ILCS 5/22-5, "no school officer or teacher shall be interested in the sale, proceeds, or profits of any book, apparatus, or furniture used or to be used in any school with which such officer or teacher may be connected," except when the employee is the author or developer of instructional materials listed with ISBE and adopted for use by the Board. An employee having an interest in instructional materials must file an annual statement with the Board Secretary.

For the purpose of acquiring profit or personal gain, no employee shall act as an agent of the District nor shall an employee act as an agent of any business in any transaction with the District. This includes participation in the selection, award, or administration of a contract supported by a federal award or State award governed by the Grant Accountability and Transparency Act (GATA) (30 ILCS 708/) when the employee has a real or apparent conflict of interest. A conflict of interest arises when an employee or any of the following individuals has a financial or other interest in or a tangible benefit from the entity selected for the contract:

For guidance counselors, a prohibited source is any person who is (1) employed by an institution of higher education, or (2) an agent or spouse of or an immediate family member living with a person employed by an institution of higher education. This prohibition does not apply to:

2. Anything for which the guidance counselor pays market value.
3. A gift from a relative.
4. Anything provided by an individual on the basis of a personal friendship, unless the guidance counselor believes that it was provided due to the official position or employment of the guidance counselor and not due to the personal friendship. In determining whether a gift is provided on the basis of personal friendship, the guidance counselor must consider the circumstances in which the gift was offered, including any of the following:
 - a. The history of the relationship between the individual giving the gift and the guidance counselor, including any previous exchange of gifts between those individuals.
 - b. Whether, to the actual knowledge of the guidance counselor, the individual who gave the gift personally paid for the gift or sought a tax deduction or business reimbursement for the gift.

Extracurricular and Co-Curricular Activities

Extracurricular or co-curricular activities are school-sponsored programs for which some or all of the activities are outside the instructional day. They do not include field trips, homework, or occasional work required outside the school day for a scheduled class. Co-curricular activity refers to an activity associated with the curriculum in a regular classroom and is generally required for class credit. Extracurricular activity refers to an activity that is not part of the curriculum, is not graded, does not offer credit, and does not take place during classroom time; it includes competitive interscholastic activities and clubs.

The Superintendent must approve an activity in order for it to be considered a District-sponsored extracurricular or co-curricular activity, using the following criteria:

1. The activity will contribute to the leadership abilities, social well-being, self-realization, good citizenship, or general growth of student-participants.
2. Fees assessed students are reasonable and do not exceed the actual cost of operation.
3. The District has sufficient financial resources for the activity.

Students must satisfy all academic standards and must comply with the activity's rules and the student conduct code.

For high school students, selection of members or participants is at the discretion of the teachers, sponsors, or coaches, provided that the selection criteria conform to the District's policies. Participation in co-curricular activities is dependent upon course selection and successful progress in those courses. In order to be eligible to participate in any school-sponsored or school-supported athletic or extracurricular activity, a student must maintain a passing grade in no less than 5 classes. Any student-participant failing to meet these academic criteria shall be suspended from the activity for seven (7) calendar days or until the specified academic criteria are met, whichever is longer.

Field Trips

Field trips are permissible when the experiences are a part of the school curriculum and/or contribute to the District's educational objectives.

All field trips must have the Superintendent or designee's prior approval, except that international field trips must have the prior approval of the School Board. The Superintendent or designee shall analyze the following factors to determine whether to approve a field trip: educational value, student safety, parent concerns, heightened security alerts, and liability concerns. On all field trips, fees set by the Superintendent or designee may be charged to help defray the transportation and substitutes costs.

Parents/guardians of students: (1) shall be given the opportunity to consent to their child's participation in any field trip, and (2) are responsible for all entrance fees, food, lodging, or other costs, except that the District will pay such costs for students who qualify for fee waiver under Board policy 4:140, *Waiver of Student Fees*. All non-participating students shall be provided an alternative experience. Any field trip may be cancelled without notice due to an unforeseen event or condition.

Privately arranged trips, including those led by District staff members, shall not be represented as or construed to be sponsored by the District or school. The District does not provide liability protection for privately arranged trips and is not responsible for any damages arising from them.

At no time does the District accept responsibility for the actions of any parent organization, educational foundation, or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as

Harassment of Students Prohibited

No person, including a School District employee or agent, or student, shall harass, intimidate, or bully a student on the basis of actual or perceived: race; color; national origin; military status; unfavorable discharge status from military service; sex; sexual orientation; gender identity; gender-related identity or expression; ancestry; age; religion; physical or mental disability; order of protection status; status of being homeless; actual or potential marital or parental status, including pregnancy; association with a person or group with one or more of the aforementioned actual or perceived characteristics; or any other distinguishing characteristic. The District will not tolerate harassing, intimidating conduct, or bullying whether verbal, physical, sexual, or visual, that affects the tangible benefits of education, that unreasonably interferes with a student's educational performance, or that creates an intimidating, hostile, or offensive educational environment. Examples of prohibited conduct include name-calling, using derogatory slurs, stalking, sexual violence, causing psychological harm, threatening or causing physical harm, threatened or actual destruction of property, or wearing or possessing items depicting or implying hatred or prejudice of one of the characteristics stated above.

Sexual Harassment Prohibited

The District shall provide an educational environment free of verbal, physical, or other conduct or communications constituting harassment on the basis of sex as defined and otherwise prohibited by State and federal law. See policies 2:265, Title IX Sexual Harassment Grievance Procedure, and 2:260, Uniform Grievance Procedure.

Making a Report or Complaint

Students are encouraged to promptly report claims or incidences of bullying, intimidation, harassment, sexual harassment, or any other prohibited conduct to the Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any employee with whom the student is comfortable speaking. A student may choose to report to an employee of the student's same gender.

Reports under this policy will be considered a report under Board policy 2:260, Uniform Grievance Procedure, and/or Board policy 2:265, Title IX Sexual Harassment Grievance Procedure. The Nondiscrimination Coordinator and/or Complaint Manager shall process and review the report according to the appropriate grievance procedure.

The Superintendent shall insert into this policy the names, office addresses, email addresses, and telephone numbers of the District's current Nondiscrimination Coordinator and Complaint Managers. The Nondiscrimination Coordinator also serves as the District's Title IX Coordinator.

The Superintendent shall use reasonable measures to inform staff members and students of this policy by including:

1. For students, age-appropriate information about the contents of this policy in the District's student handbook(s), on the District's website, and, if applicable, in any other areas where policies, rules, and standards of conduct are otherwise posted in each school.
2. For staff members, this policy in the appropriate employee handbook(s), if applicable, and/or in any other areas where policies, rules, and standards of conduct are otherwise made available to staff.

Investigation Process

Any District employee who receives a report or complaint of harassment must promptly forward the report or complaint to the Nondiscrimination Coordinator or a Complaint Manager. Any employee who fails to promptly comply may be disciplined, up to and including discharge.

Reports and complaints of harassment will be confidential to the greatest extent practicable, subject to the District's duty to investigate and maintain an educational environment that is productive, respectful, and free of unlawful discrimination, including harassment.

For any report or complaint alleging sexual harassment that, if true, would implicate Title IX of the Education Amendments of 1972 (20 U.S.C. §1681 et seq.), the Nondiscrimination Coordinator or designee shall consider whether action under policy 2:265, Title IX Sexual Harassment Grievance Procedure, should be initiated.

For any other alleged student harassment that does not require action under policy 2:265, Title IX Sexual Harassment Grievance Procedure, the Nondiscrimination Coordinator or a Complaint Manager or designee shall consider whether an investigation under policies 2:260, Uniform Grievance Procedure, and/or 7:190, Student Behavior, should be initiated, regardless of whether a written report or complaint is filed.

Reports That Involve Alleged Incidents of Sexual Abuse of a Child by School Personnel

An alleged incident of sexual abuse is an incident of sexual abuse of a child, as defined in 720 ILCS 5/11-9.1A(b), that is alleged to have been perpetrated by school personnel, including a school vendor or volunteer, that occurred: on school grounds during a school activity; or outside of school grounds or not during a school activity.

Any complaint alleging an incident of sexual abuse shall be processed and reviewed according to policy 5:90, Abused and Neglected Child Reporting. In addition to reporting the suspected abuse, the complaint shall also be processed under policy 2:265, Title IX Sexual Harassment Grievance Procedure, or policy 2:260, Uniform Grievance Procedure.

Enforcement

Any District employee who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be subject to disciplinary action up to and including discharge. Any third party who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be addressed in accordance with the authority of the Board in the context of the relationship of the third party to the District, e.g., vendor, parent, invitee, etc. Any District student who is determined, after an investigation, to have engaged in conduct prohibited by this policy will be subject to disciplinary action, including but not limited to, suspension and expulsion consistent with the behavior policy. Any person making a knowingly false accusation regarding prohibited conduct will likewise be subject to disciplinary action.

Retaliation Prohibited

Retaliation against any person for bringing complaints or providing information about harassment is prohibited (see policies 2:260, Uniform Grievance Procedure, and 2:265, Title IX Sexual Harassment Grievance Procedure).

Students should report allegations of retaliation to the Building Principal, an administrator, the Nondiscrimination Coordinator, and/or a Complaint Manager.

Title IX Sexual Harassment Grievance Procedure

Sexual harassment affects a student's ability to learn and an employee's ability to work. Providing an educational and workplace environment free from sexual harassment is an important District goal. The District does not discriminate on the basis of sex in any of its education programs or activities, and it complies with Title IX of the Education Amendments of 1972 (Title IX) and its implementing regulations (34 C.F.R. Part 106) concerning everyone in the District's education programs and activities, including applicants for employment, students, parents/guardians, employees, and third parties.

Title IX Sexual Harassment Prohibited

Sexual harassment as defined in Title IX (Title IX Sexual Harassment) is prohibited. Any person, including a District employee or agent, or student, engages in Title IX Sexual Harassment whenever that person engages in conduct on the basis of an individual's sex that satisfies one or more of the following:

1. A District employee conditions the provision of an aid, benefit, or service on an individual's participation in unwelcome sexual conduct; or
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the District's educational program or activity; or
3. Sexual assault as defined in 20 U.S.C. §1092(f)(6)(A)(v), dating violence as defined in 34 U.S.C. §12291(a)(11), domestic violence as defined in 34 U.S.C. §12291(a)(12), or stalking as defined in 34 U.S.C. §12291(a)(36).

Examples of sexual harassment include, but are not limited to, touching, crude jokes or pictures, discussions of sexual experiences, teasing related to sexual characteristics, spreading rumors related to a person's alleged sexual activities, rape, sexual battery, sexual abuse, and sexual coercion.

Definitions from 34 C.F.R. §106.30

Complainant means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

Education program or activity includes locations, events, or circumstances where the District has substantial control over both the Respondent and the context in which alleged sexual harassment occurs.

Formal Title IX Sexual Harassment Complaint means a document filed by a Complainant or signed by the Title IX Coordinator alleging sexual harassment against a Respondent and requesting that the District investigate the allegation.

Respondent means an individual who has been reported to be the perpetrator of the conduct that could constitute sexual harassment.

Supportive measures mean non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the Complainant or the Respondent before or after the filing of a Formal Title IX Sexual Harassment Complaint or where no Formal Title IX Sexual Harassment Complaint has been filed.

Title IX Sexual Harassment Prevention and Response

The Superintendent or designee will ensure that the District prevents and responds to allegations of Title IX Sexual Harassment as follows:

1. Ensures that the District's comprehensive health education program in Board policy 6:60, Curriculum Content, incorporates (a) age-appropriate sexual abuse and assault awareness and prevention programs in grades pre-K through 12, and (b) age-appropriate education about the warning signs, recognition, dangers, and prevention of teen dating violence in grades 7-12. This includes incorporating student social and emotional development into the District's educational program as required by State law and in alignment with Board policy 6:65, Student Social and Emotional Development.
2. Incorporates education and training for school staff pursuant to policy 5:100, Staff Development Program, and as recommended by the Superintendent, Title IX Coordinator, Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, or a Complaint Manager.
3. Notifies applicants for employment, students, parents/guardians, employees, and collective bargaining units of this policy and contact information for the Title IX Coordinator by, at a minimum, prominently displaying them on the District's website, if any, and in each handbook made available to such persons.

Making a Report

A person who wishes to make a report under this Title IX Sexual Harassment grievance procedure may make a report to the Title IX Coordinator, Nondiscrimination Coordinator, Building Principal, Assistant Building Principal, Dean of Students, a Complaint Manager, or any employee with whom the person is comfortable speaking. A person who wishes to make a report may choose to report to a person of the same gender.

School employees shall respond to incidents of sexual harassment by promptly making or forwarding the report to the Title IX Coordinator. An employee who fails to promptly make or forward a report may be disciplined, up to and including discharge.

The Superintendent shall insert into this policy and keep current the name, office address, email address, and telephone number of the Title IX Coordinator.

Title IX Coordinator:

Carey Beth Harry, Chief Human Resource Officer
PO Box 3990, Naperville, IL 60567
carey_harry@ipspd.org
(630) 375-3055

Processing and Reviewing a Report or Complaint

Upon receipt of a report, the Title IX Coordinator and/or designee will promptly contact the Complainant to: (1) discuss the availability of supportive measures, (2) consider the Complainant's wishes with respect to supportive measures, (3) inform the Complainant of the availability of supportive measures with or without the filing of a Formal Title IX Sexual Harassment Complaint, and (4) explain to the Complainant the process for filing a Formal Title IX Sexual Harassment Complaint.

Further, the Title IX Coordinator will analyze the report to identify and determine whether there is another or an additional appropriate method(s) for processing and reviewing it. For any report received, the Title IX Coordinator shall review Board policies 2:260, Uniform Grievance Procedure; 5:20, Workplace Harassment Prohibited; 5:90, Abused and Neglected Child Reporting; 5:120, Employee Ethics; Code of Professional Conduct; and Conflict of Interest; 7:20, Harassment of Students Prohibited; 7:180, Prevention of and Response to Bullying, Intimidation, and Harassment; 7:185, Teen Dating Violence Prohibited; and 7:190, Student Behavior, to determine if the allegations in the report require further action.

Reports of alleged sexual harassment will be confidential to the greatest extent practicable, subject to the District's duty to investigate and maintain an educational program or activity that is productive, respectful, and free of sexual harassment.

Formal Title IX Sexual Harassment Complaint Grievance Process

When a Formal Title IX Sexual Harassment Complaint is filed, the Title IX Coordinator will investigate it or appoint a qualified person to undertake the investigation.

The Superintendent or designee shall implement procedures to ensure that all Formal Title IX Sexual Harassment Complaints are processed and reviewed according to a Title IX grievance process that fully complies with 34 C.F.R. §106.45. The District's grievance process shall, at a minimum:

1. Treat Complainants and Respondents equitably by providing remedies to a Complainant where the Respondent is determined to be responsible for sexual harassment, and by following a grievance process that complies with 34 C.F.R. §106.45 before the imposition of any disciplinary sanctions or other actions against a Respondent.
2. Require an objective evaluation of all relevant evidence – including both inculpatory and exculpatory evidence – and provide that credibility determinations may not be based on a person's status as a Complainant, Respondent, or witness.
3. Require that any individual designated by the District as a Title IX Coordinator, investigator, decision-maker, or any person designated by the District to facilitate an informal resolution process:
 - a. Not have a conflict of interest or bias for or against complainants or respondents generally or an individual Complainant or Respondent.
 - b. Receive training on the definition of sexual harassment, the scope of the District's education program or activity, how to conduct an investigation and grievance process (including hearings, appeals, and informal resolution processes, as applicable), and how to serve impartially.
4. Require that any individual designated by the District as an investigator receiving training on issues of relevance to create an investigative report that fairly summarizes relevant evidence.
5. Require that any individual designated by the District as a decision-maker receive training on issues of relevance of questions and evidence, including when questions and evidence about the Complainant's sexual predisposition or prior sexual behavior are not relevant.
6. Include a presumption that the Respondent is not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.
7. Include reasonably prompt timeframes for conclusion of the grievance process.

8. Describe the range of possible disciplinary sanctions and remedies the District may implement following any determination of responsibility.
9. Base all decisions upon the preponderance of evidence standard.
10. Include the procedures and permissible bases for the Complainant and Respondent to appeal.
11. Describe the range of supportive measures available to Complainants and Respondents.
12. Not require, allow, rely upon, or otherwise use questions or evidence that constitute, or seek disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

Enforcement

Any District employee who is determined, at the conclusion of the grievance process, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any third party who is determined, at the conclusion of the grievance process, to have engaged in sexual harassment will be addressed in accordance with the authority of the Board in the context of the relationship of the third party to the District, e.g., vendor, parent, invitee, etc. Any District student who is determined, at the conclusion of the grievance process, to have engaged in sexual harassment will be subject to disciplinary action, including, but not limited to, suspension and expulsion consistent with student behavior policies. Any person making a knowingly false accusation regarding sexual harassment will likewise be subject to disciplinary action.

This policy does not increase or diminish the ability of the District or the parties to exercise any other rights under existing law.

Retaliation Prohibited

The District prohibits any form of retaliation against anyone who, in good faith, has made a report or complaint, assisted, or participated or refused to participate in any manner in a proceeding under this policy. Any person should report claims of retaliation using Board policy 2:260, Uniform Grievance Procedure.

Any person who retaliates against others for reporting or complaining of violations of this policy or for participating in any manner under this policy will be subject to disciplinary action, up to and including discharge, with regard to employees, or suspension and expulsion, with regard to students.

Instruction

Accelerated Placement Program

The District provides an Accelerated Placement Program (APP). The APP advances the District's goal of providing educational programs with opportunities for each student to develop to his or her maximum potential. The APP provides an educational setting with curriculum options usually reserved for students who are older or in higher grades than the student participating in the APP. APP options include, but may not be limited to: (a) accelerating a student in a single subject; (b) other grade-level acceleration; and (c) early entrance to kindergarten or first grade. Participation in the APP is open to all students who demonstrate high ability and who may benefit from accelerated placement. It is not limited to students who have been identified as gifted and talented. Eligibility to participate in the District's APP shall not be conditioned upon the protected classifications identified in Board policy 7:10, Equal Educational Opportunities, or any factor other than the student's identification as an accelerated learner.

The Superintendent or designee shall implement an APP that includes:

1. Decision-making processes that are fair, equitable, and involve multiple individuals, e.g. District administrators, teachers, and school support personnel, and a student's parent(s)/guardian(s);
2. Notification processes that notify a student's parent(s)/guardian(s) of a decision affecting a student's participation in the APP;
3. Assessment processes that include multiple valid, reliable indicators; and
4. The automatic enrollment, in the following school term, of a student into the next most rigorous level of advanced coursework offered by the high school if the student meets or exceeds State standards in English language arts, mathematics, or science on a State assessment administered under 105 ILCS 5/2-3.64a-5, as follows:
 - a. A student who meets or exceeds State standards in English language arts shall be automatically enrolled into the next most rigorous level of advanced coursework in English, social studies, humanities, or related subjects.
 - b. A student who meets or exceeds State standards in mathematics shall be automatically enrolled into the next most rigorous level of advanced coursework in mathematics.
 - c. A student who meets or exceeds State standards in science shall be automatically enrolled into the next most rigorous level of advanced coursework in science.

The Superintendent or designee shall annually notify the community, parent(s)/guardian(s), students, and school personnel about the APP, the process for referring a student for possible evaluation for accelerated placement, and the methods used to determine whether a student is eligible for accelerated placement, including strategies to reach groups of students and families who have been historically underrepresented in accelerated placement programs and advanced coursework. Notification may: (a) include varied communication methods, such as student handbooks and District or school websites; and (b) be provided in multiple languages, as appropriate.

Access to Electronic Networks

Electronic networks are a part of the District's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication.

The term *electronic networks* includes all of the District's technology resources, including, but not limited to:

1. The District's local-area and wide-area networks, including wireless networks (Wi-Fi), District-issued Wi-Fi hotspots, and any District servers or other networking infrastructure;
2. Access to the Internet or other online resources via the District's networks or to any District-issued online account from any computer or device, regardless of location;
3. District-owned or District-issued computers, laptops, tablets, phones, or similar devices.

The Superintendent shall develop an implementation plan for this policy and appoint system administrator(s).

The School District is not responsible for any information that may be lost or damaged, or become unavailable when using the network, or for any information that is retrieved or transmitted via the Internet. Furthermore, the District will not be responsible for any unauthorized charges or fees resulting from access to the Internet.

Curriculum and Appropriate Online Behavior

The use of the District's electronic networks shall: (1) be consistent with the curriculum adopted by the District as well as the varied instructional needs, learning styles, abilities, and developmental levels of the students, and (2) comply with the selection criteria for instructional materials and library resource center materials. As required by federal law and Board policy 6:60, *Curriculum Content*, students will be educated about appropriate online behavior, including but not limited to: (1) interacting with other individuals on social networking websites and in chat rooms, and (2) cyberbullying awareness and response. Staff members may, consistent with the Superintendent's implementation plan, use the Internet throughout the curriculum. The District's electronic network is part of the curriculum and is not a public forum for general use.

Acceptable Use

All use of the District's electronic networks must be: (1) in support of education and/or research, and be in furtherance of the goals stated herein, or (2) for a legitimate school business purpose. Use is a privilege, not a right. Users of the District's electronic networks have no expectation of privacy in any material that is stored on, transmitted, or received via the District's electronic networks. General rules for behavior and communications apply when using electronic networks. The District's administrative procedure, *Acceptable Use of the District's Electronic Networks*, contains the appropriate uses, ethics, and protocol. Electronic communications and downloaded material, including files deleted from a user's account but not erased, may be monitored or read by school officials.

Internet Safety

Technology protection measures shall be used on each District computer with Internet access. They shall include a filtering device that protects against Internet access by both adults and minors to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by federal law and as determined by the Superintendent or designee. The Superintendent or designee shall enforce the use of such filtering devices. An administrator, supervisor, or other authorized person may disable the filtering device for bona fide research or other lawful purpose, provided the person receives prior permission from the Superintendent or system administrator. The Superintendent or designee shall include measures in this policy's implementation plan to address the following:

1. Ensure staff supervision of student access to online electronic networks,
2. Restrict student access to inappropriate matter as well as restricting access to harmful materials,
3. Ensure student and staff privacy, safety, and security when using electronic communications,
4. Restrict unauthorized access, including "hacking" and other unlawful activities, and
5. Restrict unauthorized disclosure, use, and dissemination of personal identification information, such as, names and addresses.

The District monitors student and staff use of the internet, including the web sites and searches that are conducted. The District will not monitor students' personal devices outside of the District or when using a non-District data connection.

The District's current monitoring procedure includes receiving alerts once daily if there are attempts to visit or searches for terms that are obscene, pornographic, involve self-harm or harm to others, or other concerning queries. The District provides this monitoring to ensure proper use of the District's electronic networks and to identify possible areas of need. When conducting this monitoring, the District assumes no responsibility or liability for preventing, identifying, or stopping any harm caused by an individual to self or others. The District may amend, including discontinue, its monitoring procedures at the discretion of the Superintendent or designee.

Authorization for Electronic Network Access

Each staff member must sign the *Authorization for Access to the District's Electronic Networks* as a condition for using the District's electronic network. Each student and his or her parent(s)/guardian(s) must sign the Authorization before being granted unsupervised use.

Confidentiality

All users of the District's computers to access the Internet shall maintain the confidentiality of student records. Reasonable measures to protect against unreasonable access shall be taken before confidential student information is loaded onto the network.

Violations

The failure of any user to follow the terms of the District's administrative procedure, *Acceptable Use of the District's Electronic Networks*, or this policy, will result in the loss of privileges, disciplinary action, and/or appropriate legal action.

Video / Audio Conference Recording Prohibited

Individuals are prohibited from recording school-related video conferences and/or audio conferences (including but not limited to instruction, small group activities, and other educational services). Pursuant to applicable confidentiality and privacy laws, the School District does not authorize or consent to any such recording. Parents/guardians, students, and all others must not record remote learning educational activities, instruction, and/or services. Violations of this requirement will result in consequences, which may include removal of the student's access to remote learning activities and/or discipline for student misconduct.

1:1 Chromebook Initiative

As part of the District's digital transformation and 1:1 Initiative, the Indian Prairie School District #204 will be providing each grade 2-12 student a Google Chromebook for use to support their learning. All students/parents/guardians are required to review and sign the IPSD 1:1 Student/Parent Agreement as a condition of receiving a Chromebook. Our expectation and belief is that students will responsibly use district technology and that they understand the appropriate and acceptable use of both the technology and district networks. We also expect that students will keep their district-issued devices safe, secure and in good working order. Because the borrowed device is the property of the school district, it is subject to monitoring of use and search of contents at any time. Per Board Policy 6:235, there is no expectation of privacy in use or data stored on the district-owned device.

Students will turn in their Chromebooks at the end of each school year, when they transfer to another building in the district, or transfer out of the district. Students must also return devices immediately upon request of school officials if warranted by a disciplinary situation or investigation. Students who withdraw from IPSD #204 School District must turn in their Chromebook and its accompanying materials on their last day of attendance. Failure to turn in the Chromebook will result in the student being charged a replacement cost. Students who refuse to voluntarily turn in their Chromebook or fail to pay the full replacement cost will also be

responsible for the payment of all costs, including but not limited to attorney's fees, incurred by the district to recover the Chromebook or any owed fees.

Assemblies and Ceremonies

Assemblies must be approved by the Superintendent or designee and be consistent with the District's educational objectives. While the District respects an individual's brief, quiet, personal religious observance(s), it shall not endorse or otherwise promote invocations, benedictions, and group prayers at any school assembly, ceremony, or other school-sponsored activity.

Complaints About Curriculum, Instructional Materials, and Programs

Parents/guardians have the right to inspect any instructional material used as part of their child's educational curriculum pursuant to School Board policy 7:15, Student and Family Privacy Rights.

Parents/guardians, employees, and community members who believe that curriculum, instructional materials, or programs violate rights guaranteed by any law or Board policy may file a complaint using Board policy 2:260, Uniform Grievance Procedure.

Parents/guardians, employees, and community members with other suggestions or complaints about curriculum, instructional materials, or programs should complete a Curriculum Objection Form. A parent/guardian may request that his/her child be exempt from using a particular instructional material or program by completing a Curriculum Objection Form. The Superintendent or designee shall establish criteria for the review of objections and inform the parent/guardian, employee, or community member, as applicable, of the District's decision.

Curriculum Content

The curriculum shall contain instruction on subjects required by State statute or regulation as follows:

1. In kindergarten through grade 8, subjects include: (a) language arts, (b) reading, (c) other communication skills, (d) science, (e) mathematics, (f) social studies, (g) art, (h) music, and (i) drug and substance abuse prevention including the dangers of opioid abuse. A reading opportunity of 60 minutes per day will be promoted for all students in kindergarten through grade 3 whose reading levels are one grade level or more lower than their current grade level. Daily time of at least 30 minutes (with a minimum of at least 15 consecutive minutes if divided) will be provided for supervised, unstructured, child-directed play for all students in kindergarten through grade 5. Before the completion of grade 5, students will be offered at least one unit of cursive instruction. In grades 6, 7, or 8, students must receive at least one semester of civics education in accordance with Illinois Learning Standards for social science.
2. In grades 9 through 12, subjects include: (a) language arts, (b) writing intensive courses, (c) science, (d) mathematics, (e) social studies including U.S. history, American government and one semester of civics, (f) foreign language, (g) music, (h) art, (i) driver and safety education, and (j) vocational education.

Students otherwise eligible to take a driver education course must receive a passing grade in at least eight courses during the previous two semesters before enrolling in the course. The Superintendent or designee may waive this requirement if he or she believes a waiver to be in the student's best interest. The course shall include: (a) instruction necessary for the safe operation of motor vehicles, including motorcycles, to the extent that they can be taught in the classroom, (b) classroom instruction on distracted driving as a major traffic safety issue, (c) instruction on required safety and driving precautions that must be

observed at emergency situations, highway construction and maintenance zones, and railroad crossings and their approaches, and (d) instruction concerning law enforcement procedures for traffic stops, including a demonstration of the proper actions to be taken during a traffic stop and appropriate interactions with law enforcement. Automobile safety instruction covering traffic regulations and highway safety must include instruction on the consequences of alcohol consumption and the operation of a motor vehicle. The eligibility requirements contained in State law for the receipt of a certificate of completion from the Secretary of State shall be provided to students in writing at the time of their registration.

3. In grades 7 through 12, as well as in interscholastic athletic programs, steroid abuse prevention must be taught.
4. In kindergarten through grade 12, provided it can be funded by private grants or the federal government, violence prevention and conflict resolution must be stressed, including: (a) causes of conflict, (b) consequences of violent behavior, (c) non-violent resolution, and (d) relationships between drugs, alcohol, and violence. In addition, anti-bias education and intergroup conflict resolution may be taught as an effective method for preventing violence and lessening tensions in schools; these prevention methods are most effective when they are respectful of individuals and their divergent viewpoints and religious beliefs, which are protected by the [First Amendment to the Constitution of the United States](#).
5. In grades kindergarten through 12, age-appropriate Internet safety must be taught, the scope of which shall be determined by the Superintendent or designee. The curriculum must incorporate policy 6:235, Access to Electronic Networks and, at a minimum, include: (a) education about appropriate online behavior, (b) interacting with other individuals on social networking websites and in chat rooms, and (c) cyberbullying awareness and response.
6. In all grades, students must receive developmentally appropriate opportunities to gain computer literacy skills that are embedded in the curriculum.
7. In all grades, character education must be taught including respect, responsibility, fairness, caring, trustworthiness, and citizenship in order to raise students' honesty, kindness, justice, discipline, respect for others, and moral courage. Instruction in all grades will include examples of behaviors that violate policy 7:180, Prevention of and Response to Bullying, Intimidation, and Harassment.
8. In all schools, citizenship values must be taught, including: (a) American patriotism, (b) principles of representative government (the American Declaration of Independence, the Constitution of the United States of America and the Constitution of the State of Illinois), (c) proper use and display of the American flag, (d) the Pledge of Allegiance, and (e) the voting process.
9. In all grades, physical education must be taught including a developmentally planned and sequential curriculum that fosters the development of movement skills, enhances health-related fitness, increases students' knowledge, offers direct opportunities to learn how to work cooperatively in a group setting, and encourages healthy habits and attitudes for a healthy lifestyle. Unless otherwise exempted, all students are required to engage in a physical education course with such frequency as determined by the Board after recommendation from the Superintendent, but at a minimum of three days per five-day week. For exemptions and substitutions, see policies 6:310, High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students and 7:260, Exemption from Physical Education.

Community Involvement

The Board and Superintendent or designee will actively invite suggestions and comments concerning the development, implementation, periodic reviews, and updates of the school wellness policy from parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the community. Community involvement methods shall align their suggestions and comments to policy 2:140, Communications To and From the Board and/or the **Community Engagement** subhead in policy 8:10, Connection with the Community

Recordkeeping

The Superintendent or designee shall retain records to document compliance with this policy, the District's records retention protocols, and the Local Records Act.

Student Social and Emotional Development

Social and emotional learning (SEL) is defined as the process through which students enhance their ability to integrate thinking, feeling, and behaving to achieve important life tasks. Students competent in SEL are able to recognize and manage their emotions, establish healthy relationships, set positive goals, meet personal and social needs, and make responsible and ethical decisions.

The Superintendent shall incorporate SEL into the District's curriculum and other educational programs consistent with the District's mission and the goals and benchmarks of the Ill. Learning Standards. The Ill. Learning Standards include three goals for students:

1. Develop self-awareness and self-management skills to achieve school and life success.
2. Use social-awareness and interpersonal skills to establish and maintain positive relationships.
3. Demonstrate decision-making skills and responsible behaviors in personal, school, and community contexts.

The incorporation of SEL objectives into the District's curriculum and other educational programs may include but is not limited to:

1. Classroom and school-wide programming to foster a safe, supportive learning environment where students feel respected and valued. This may include incorporating scientifically

based, age-and-culturally appropriate classroom instruction, District-wide, and school-wide strategies that teach SEL skills, promote optimal mental health, and prevent risk behaviors for all students.

2. Staff development and training to promote students' SEL development. This may include providing all personnel with age-appropriate academic and SEL and how to promote it.
3. Parent/Guardian and family involvement to promote students' SEL development. This may include providing parents/guardians and families with learning opportunities related to the importance of their children's optimal SEL development and ways to enhance it.
4. Community partnerships to promote students' SEL development. This may include establishing partnerships with diverse community agencies and organizations to assure a coordinated approach to addressing children's mental health and SEL development.
5. Early identification and intervention to enhance students' school readiness, academic success, and use of good citizenship skills. This may include development of a system and procedures for periodic and universal screening, assessment, and early intervention for students who have significant risk factors for social, emotional, or mental health conditions that impact learning.
6. Treatment to prevent or minimize mental health conditions in students. This may include building and strengthening referral and follow-up procedures for providing effective clinical services for students with social, emotional, and mental health conditions that impact learning. This may include student and family support services, school-based behavioral health services, and school-community linked services and supports.
7. Assessment and accountability for teaching SEL skills to all students. This may include implementation of a process to assess and report baseline information and ongoing progress about school climate, students' social and emotional development, and academic performance.

Student Testing and Assessment Program

The District student assessment program provides information for determining individual student achievement and instructional needs, curriculum and instruction effectiveness, and school performance measured against District student learning objectives and statewide norms.

The Superintendent or designee shall manage the student assessment program that, at a minimum:

1. Administers to students all standardized assessments required by the Ill. State Board of Education (ISBE) and/or any other appropriate assessment methods and instruments, including norm and criterion-referenced achievement tests, aptitude tests, proficiency tests, and teacher-developed tests.
2. Informs students of the timelines and procedures applicable to their participation in every State assessment.
3. Provides each student's parents/guardians with the results or scores of each State assessment. See policy 6:280, Grading and Promotion.
4. Utilizes professional testing practices.

Overall student assessment data on tests required by State law will be aggregated by the District and reported, along with other information, on the District's annual report card. All reliable assessments administered by the District and scored by entities outside of the District must be (1) reported to ISBE on its form by the 30th day of each school year, and (2) made publicly available to parents/guardians of students. Board policy 7:340, *Student Records*, and its implementing procedures govern recordkeeping and access issues.

Teacher Qualifications

A teacher, as the term is used in this policy, refers to a District employee who is required to be certified under State law. The following qualifications apply:

1. Each teacher must:
 - a. Have a valid Illinois certificate that legally qualifies the teacher for the duties for which the teacher is employed.
 - b. Provide the District Office with a complete official transcript of credits earned in institutions of higher education.
 - c. On or before September 1 of each year, unless otherwise provided in an applicable collective bargaining agreement, provide the District Office with an official transcript of any credits earned since the date the last transcript was filed.
2. All teachers with primary responsibility for instructing students in the core academic subject areas (science, the arts, reading or language arts, English, history, civics and government, economics, geography, foreign language, and mathematics) must be highly qualified for those assignments as determined by State and federal law.

The Superintendent or designee shall:

1. Monitor compliance with State and federal law requirements that teachers be appropriately certified and highly qualified for their assignments;
2. Through incentives for voluntary transfers, professional development, recruiting programs, or other effective strategies, ensure that minority students and students from low-income families are not taught at higher rates than other students by unqualified, out-of-field, or inexperienced teachers; and
3. Ensure parents/guardians of students in schools receiving Title I funds are notified: (a) of their right to request their students' classroom teachers' professional qualifications, and (b) whenever their child is assigned to, or has been taught for 4 or more consecutive weeks by, a teacher who is not highly qualified.

Title I Programs

The Superintendent or designee shall pursue funding under Title I, Improving the Academic Achievement of the Disadvantaged, of the Elementary and Secondary Education Act, to supplement instructional services and activities in order to improve the educational opportunities of educationally disadvantaged or deprived children.

All District schools, regardless of whether they receive Title I funds, shall provide services that, taken as a whole, are substantially comparable. Teachers, administrators, and other staff shall be assigned to schools in a manner that ensures equivalency among the District's schools. Curriculum materials and instructional supplies shall be provided in a manner that ensures equivalency among the District's schools.

Title I Parent and Family Engagement

The District maintains programs, activities, and procedures for the engagement of parents/guardians and families of students receiving services, or enrolled in programs, under Title I. These programs, activities, and procedures are described in District-level and School-level compacts.

District-Level Parent and Family Engagement Compact

The Superintendent or designee shall develop a District-Level Parent and Family Engagement Compact according to Title I requirements. The District-Level Parent and Family Engagement Compact shall contain: (1) the District's expectations for parent and family engagement, (2) specific strategies for effective parent and family engagement activities to improve student academic achievement and school performance, and (3) other provisions as required by federal law. The Superintendent or designee shall ensure

that the Compact is distributed to parents/guardians of students receiving services, or enrolled in programs, under Title I.

School-Level Parent and Family Engagement Compact

Each Building Principal or designee shall develop a School-Level Parent and Family Engagement Compact according to Title I requirements. This School-Level Parent and Family Engagement Compact shall contain: (1) a process for continually involving parents/guardians in its development and implementation, (2) how parents/guardians, the entire school staff, and students share the responsibility for improved student academic achievement, (3) the means by which the school and parents/guardians build and develop a partnership to help children achieve the State's high standards, and (4) other provisions as required by federal law. Each Building Principal or designee shall ensure that the Compact is distributed to parents/guardians of students receiving services, or enrolled in programs, under Title I.

Medical and Health Information

Administering Medicines to Students

Students should not take medication during school hours or during school-related activities unless it is necessary for a student's health and well-being. When a student's licensed health care provider and parent/guardian believe that it is necessary for the student to take a medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child and otherwise follow the District's procedures on dispensing medication.

No School District employee shall administer to any student, or supervise a student's self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form (SMA Form) is submitted by the student's parent/guardian. No student shall possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this policy and its implementing procedures.

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication. The Building Principal shall include this policy in the Student Handbook and shall provide a copy to the parents/guardians of students.

Self-Administration of Medication

A student may possess and self-administer an epinephrine injector, e.g., EpiPen®, and/or asthma medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed an SMA Form. The Superintendent or designee will ensure an Emergency Action Plan is developed for each self-administering student.

A student may self-administer medication required under a qualifying plan, provided the student's parent/guardian has completed and signed an SMA Form. A qualifying plan means: (1) an asthma action plan, (2) an Individual Health Care Action Plan, (3) an allergy emergency action plan, (4) a plan pursuant to Section 504 of the federal Rehabilitation Act of 1973, or (5) a plan pursuant to the federal Individuals with Disabilities Education Act.

The District shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the District and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

School District Supply of Undesignated Epinephrine Injectors and Injectors and Undesignated Albuterol Inhalers

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated epinephrine injectors and injectors and undesignated albuterol inhalers in the name of the District and provide or administer them as necessary according to State law. Undesignated epinephrine injector means an epinephrine injector prescribed in the name of the District or one of its schools. An undesignated albuterol inhaler means an albuterol inhaler prescribed in the name of the District or one of its schools. A school nurse, registered nurse, or trained personnel, as defined in State law, may administer an undesignated epinephrine injector to a person when they, in good faith, believe a person is having an anaphylactic reaction.

School District Supply of Undesignated Opioid Antagonists

The Superintendent or designee shall implement 105 ILCS 5/22-30(f) and maintain a supply of undesignated opioid antagonists and provide or administer them as necessary according to State law. Opioid antagonist means a drug that binds to opioid receptors and blocks or inhibits the effect of opioids acting on those receptors, including, but not limited to, naloxone hydrochloride or any other similarly acting drug approved by the U.S. Food and Drug Administration. Undesignated opioid antagonist is not defined by the School Code; for purposes of this policy it means an opioid antagonist prescribed in the name of the District or one of its schools. A school nurse or trained personnel, as defined in State law, may administer an undesignated opioid antagonist to a person when they, in good faith, believe a person is having an opioid overdose. Each building administrator and/or his or her corresponding school nurse shall maintain the names of trained personnel who have received a statement of certification pursuant to State law. See the website for the Ill. Dept. of Human Services for information about opioid prevention, abuse, public awareness, and a toll-free number to provide information and referral services for persons with questions concerning substance abuse treatment.

Administration of Medical Cannabis

The Compassionate Use of Medical Cannabis Program Act allows an FDA approved medical cannabis infused product to be administered to a student by one or more of the following individuals:

1. A parent/guardian of a student who is a minor who registers with the Ill. Dept. of Public Health (IDPH) as a designated caregiver to administer medical cannabis to their child. A designated caregiver may also be another individual other than the student's parent/guardian. Any designated caregiver must be at least 21 years old and is allowed to administer a medical cannabis infused product to a child who is a student on the premises of his or her school or on his or her school bus if:
 - a. Both the student and the designated caregiver possess valid registry identification cards issued by IDPH;
 - b. Copies of the registry identification cards are provided to the District;
 - c. That student's parent/guardian completed, signed, and submitted a School Medication Authorization Form - Medical Cannabis; and
 - d. After administering the product to the student, the designated caregiver immediately removes it from school premises or the school bus.
2. A properly trained school nurse or administrator, who shall be allowed to administer the medical cannabis infused product to the student on the premises of the child's school, at a school sponsored activity, or before/after normal school activities, including while the student is in before-school or after-school care on school-operated property or while being transported on a school bus.
3. The student him or herself when the self-administration takes place under the direct supervision of a school nurse or administrator.

Medical cannabis infused product (product) includes oils, ointments, foods, and other products that contain usable cannabis but are not smoked or vaped. Smoking and/or vaping medical cannabis is prohibited.

The product may not be administered in a manner that, in the opinion of the District or school, would create a disruption to the educational environment or cause exposure of the product to other students. A school employee shall not be required to administer the product.

Discipline of a student for being administered a product by a designated caregiver, or by a school nurse or administrator, or who self-administers a product under the direct supervision of a school nurse or administrator pursuant to this policy is prohibited. The District may not deny a student

attendance at a school solely because he or she requires administration of the product during school hours.

Void Policy

The **School District Supply of Undesignated Epinephrine Injectors and Injectors and Undesignated Albuterol Inhalers** section of the policy is void whenever the Superintendent or designee is, for whatever reason, unable to: (1) obtain for the District a prescription for undesignated epinephrine injectors from a physician or advanced practice nurse licensed to practice medicine in all its branches, or (2) fill the District's prescription for undesignated school epinephrine injectors.

The **School District Supply of Undesignated Opioid Antagonists** section of the policy is void whenever the Superintendent or designee is unable to obtain a supply of opioid antagonists due to a shortage, in which case the District shall make reasonable efforts to maintain a supply.

The **Administration of Medical Cannabis** section of the policy is void and the District reserves the right not to implement it if the District or school is in danger of losing federal funding.

Administration of Undesignated Medication

Upon any administration of an undesignated medication permitted by State law, the Superintendent or designee(s) must ensure all notifications required by State law and administrative procedures occur.

Undesignated Medication Disclaimers

Upon implementation of this policy, the protections from liability and hold harmless provisions applicable under State law apply.

No one, including without limitation, parents/guardians of students, should rely on the District for the availability of undesignated medication. This policy does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

Exemption from Physical Activity

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request. Upon written notice from a student's parent/guardian, a student will be excused from engaging in the physical activity components of physical education during a period of religious fasting.

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practice Act, prevents his or her participation in the physical education course.

State law prohibits a school board from honoring parental excuses based upon a student's participation in athletic training, activities, or competitions conducted outside the auspices of the School District.

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

A student requiring adapted physical education must receive that service in accordance with his or her Individualized Educational Program/Plan (IEP).

A student in grades 9-12, unless otherwise stated, may submit a written request to the Building Principal to be excused from physical education courses for the reasons stated in 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

Students in grades 7 and 8 may submit a written request to the Building Principal to be excused from physical education courses because of his or her ongoing participation in an interscholastic or extracurricular athletic program. Interscholastic or extracurricular athletic programs are organized school-sponsored or school-sanctioned activities for students that are not part of the curriculum, not graded, not for credit, generally take place outside of school instructional hours, and under the direction of a coach, athletic director, or band leader. The Building Principal will evaluate requests on a case-by-case basis.

The Superintendent or designee shall maintain records showing that the criteria set forth in this policy were applied to the student's individual circumstances, as appropriate.

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to a physical education course:

1. The time of year when the student's participation ceases;
2. The student's class schedule; and
3. The student's future or planned additional participation in activities qualifying for substitutions for physical education as outlined in policy 6:310, *High School Credit for Non-District Experiences; Course Substitutions; Re-Entering Students*.

Health, Eye, and Dental Examinations; Immunizations; and Exclusion of Students

Required Health Examinations and Immunizations

A student's parents/guardians shall present proof that the student received a health examination, with proof of the immunizations against, and screenings for, preventable communicable diseases, as required by the Illinois Department of Public Health (IDPH), within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and ninth grades; and
3. Enrolling in an Illinois school, regardless of the student's grade (including nursery school, special education, Head Start programs operated by elementary or secondary schools, and students transferring into Illinois from out-of-state or out-of-country).

Proof of immunization against meningococcal disease is required for students in grades 6 and 12.

As required by State law:

1. Health examinations must be performed by a physician licensed to practice medicine in all of its branches, an advanced practice registered nurse, or a physician assistant who has been delegated the performance of health examinations by a supervising physician.
2. A diabetes screening is a required part of each health examination; diabetes testing is not required.

3. An age-appropriate developmental screening and an age-appropriate social and emotional screening are required parts of each health examination. A student will not be excluded from school due to his or her parent/guardian's failure to obtain a developmental screening or a social and emotional screening.
4. Before admission and in conjunction with required physical examinations, parents/guardians of children between the ages of one and seven years must provide a statement from a physician that their child was risk-assessed or screened for lead poisoning.
5. The IDPH will provide all students entering sixth grade and their parents/guardians information about the link between human papillomavirus (HPV) and HPV-related cancers and the availability of the HPV vaccine.
6. The District will provide informational materials regarding influenza, influenza vaccinations, meningococcal disease, and meningococcal vaccinations developed, provided, or approved by the IDPH when it provides information on immunizations, infectious diseases, medications, or other school health issues to students' parents/guardians.

Unless an exemption or extension applies, the failure to comply with the above requirements by October 15 of the current school year will result in the student's exclusion from school until the required health forms are presented to the District. New students who register after October 15 of the current school year shall have 30 days following registration to comply with the health examination and immunization regulations. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by the physician, advanced practice registered nurse, physician assistant, or local health department responsible for administering the immunizations.

A student transferring from out-of-state who does not have the required proof of immunizations by October 15 may attend classes only if he or she has proof that an appointment for the required vaccinations is scheduled with a party authorized to submit proof of the required vaccinations. If the required proof of vaccination is not submitted within 30 days after the student is permitted to attend classes, the student may no longer attend classes until proof of the vaccinations is properly submitted.

Eye Examination

Parents/guardians are encouraged to have their children undergo an eye examination whenever health examinations are required.

Parents/guardians of students entering kindergarten or an Illinois school for the first time shall present proof before October 15 of the current school year that the student received an eye examination within one year prior to entry of kindergarten or the school. A physician licensed to practice medicine in all of its branches or a licensed optometrist must perform the required eye examination.

If a student fails to present proof by October 15, the school may hold the student's report card until the student presents proof: (1) of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15. The Superintendent or designee shall ensure that parents/guardians are notified of this eye examination requirement in compliance with the rules of the IDPH. Schools shall not exclude a student from attending school due to failure to obtain an eye examination.

Dental Examination

All children in kindergarten and the second, sixth, and ninth grades must present proof of having been examined by a licensed dentist before May 15 of the current school year in accordance with rules adopted by the IDPH.

If a child in the second, sixth, or ninth grade fails to present proof by May 15, the school may hold the child's report card until the child presents proof: (1) of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15. The Superintendent or designee shall ensure that parents/guardians are notified of this dental examination requirement at least 60 days before May 15 of each school year.

Exemptions

In accordance with rules adopted by the IDPH, a student will be exempted from this policy's requirements for:

1. Religious grounds, if the student's parents/guardians present the IDPH's Certificate of Religious Exemption form to the Superintendent or designee. When a Certificate of Religious Exemption form is presented, the Superintendent or designee shall immediately inform the parents/guardians of exclusion procedures pursuant to Board policy 7:280, Communicable and Chronic Infectious Disease, and State rules if there is an outbreak of one or more diseases from which the student is not protected.
2. Health examination or immunization requirements on medical grounds, if the examining physician, advanced practice registered nurse, or physician assistant provides written verification.
3. Eye examination requirement, if the student's parents/guardians show an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist.
4. Dental examination requirement, if the student's parents/guardians show an undue burden or a lack of access to a dentist.

Homeless Child

Any homeless child shall be immediately admitted, even if the child or child's parent/guardian is unable to produce immunization and health records normally required for enrollment. School Board policy 6:140, *Education of Homeless Children*, governs the enrollment of homeless children.

Communicable and Chronic Infectious Disease

A student with or carrying a communicable and/or chronic infectious disease has all rights, privileges, and services provided by law and the School Board's policies. The Superintendent or designee will develop procedures to safeguard these rights while managing health and safety concerns.

Information on the control and prevention of communicable diseases may be obtained from Health Services. Reports of a communicable disease are to be directed to nursing personnel at the school.

Pediculosis (Head Lice)

Indian Prairie School District's policy, Exclusion of Students Due to Pediculosis (Head Lice) 720.16, has been changed to reflect standard practice as recommended by the Center for Disease Control, American Academy of Pediatrics, the National Association of School Nurses, and the Harvard School of Public Health. These organizations recommend that the management of pediculosis should not disrupt the educational process or create unnecessary absenteeism. The purpose of this letter is to explain the reasons for the changes and help you to understand why these changes do not put your child at any greater risk of contracting lice.

When lice/nits are found on a child at school, that child's parent/guardian will be informed. The child will be picked up from school by the parent. Once the child is treated for lice, the child may return to school with proof of treatment. Proof of treatment may be in the form of a physician

statement, receipt for the product used, or the box top from the product used. The child will then be readmitted to class. The child will typically be back in class the next morning.

1. Lice are spread by head-to-head or close personal contact. School activities do not include this type of contact. Lice are not transmitted due to poor hygiene.
2. You only get lice from another human. You will not get lice from pets.
3. Lice do not fly or jump. They do not fall off the hair shaft; they are cemented to it. They do crawl.
4. Lice are not considered to be dangerous. They are considered to be a public health nuisance.
5. Household members and close contacts should be checked, but only those who actually have lice should be treated for it.
6. Studies have proven that excluding students from school does not reduce the frequency of the discovery of lice. School is considered to be a very rare source of transmission. More common means of transmission are family members, overnight guests, playmates, shared hairbrushes, pillows, and sheets.

If you believe your child may have lice, or you need further information, please contact your school's health office.

Student Athlete Concussions and Head Injuries

The Superintendent or designee shall develop and implement a program to manage concussions and head injuries suffered by student athletes. The program shall:

1. Fully implement the Youth Sports Concussion Safety Act, that provides without limitation, each of the following:
 - a. The Board must appoint or approve members of a Concussion Oversight Team for the District.
 - b. The Concussion Oversight Team shall establish each of the following based on peer-reviewed scientific evidence consistent with guidelines from the Centers for Disease Control and Prevention:
 - i. A return-to-play protocol governing a student's return to interscholastic athletics practice or competition following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise an athletic trainer or other person responsible for compliance with the return-to-play protocol.
 - ii. A return-to-learn protocol governing a student's return to the classroom following a force of impact believed to have caused a concussion. The Superintendent or designee shall supervise the person responsible for compliance with the return-to-learn protocol.
 - c. Each student and the student's parent/guardian shall be required to sign a concussion information receipt form each school year before participating in an interscholastic athletic activity.
 - d. A student shall be removed from an interscholastic athletic practice or competition immediately if any of the following individuals believes that the student sustained a concussion during the practice and/or competition: a coach, a physician, a game official, an athletic trainer, the student's parent/guardian, the student, or any other person deemed appropriate under the return-to-play protocol.
 - e. A student who was removed from interscholastic athletic practice or competition shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the return-to-play and return-to-learn protocols developed by the Concussion Oversight Team. An athletic team coach or assistant coach may not authorize a student's return-to-play or return-to-learn.
 - f. The following individuals must complete concussion training as specified in the Youth Sports Concussion Safety Act: all coaches or assistant coaches (whether volunteer or a district employee) of interscholastic athletic activities; nurses,

- licensed healthcare professionals or non-licensed healthcare professionals who serve on the Concussion Oversight Team (whether or not they serve on a volunteer basis); athletic trainers; game officials of interscholastic athletic activities; and physicians who serve on the Concussion Oversight Team.
- g. The Board shall approve school-specific emergency action plans for interscholastic athletic activities to address the serious injuries and acute medical conditions in which a student's condition may deteriorate rapidly.
2. Comply with the concussion protocols, policies, and by-laws of the Illinois High School Association, including its *Protocol for Implementation of NFHS Sports Playing Rules for Concussion*, which includes its *Return to Play (RTP) Policy*. These specifically require that:
 - a. A student athlete who exhibits signs, symptoms, or behaviors consistent with a concussion in a practice or game shall be removed from participation or competition at that time.
 - b. A student athlete who has been removed from an interscholastic contest for a possible concussion or head injury may not return to that contest unless cleared to do so by a physician licensed to practice medicine in all its branches in Illinois or a certified athletic trainer.
 - c. If not cleared to return to that contest, a student athlete may not return to play or practice until the student athlete has provided his or her school with written clearance from a physician licensed to practice medicine in all its branches in Illinois, advanced practice registered nurse, physician assistant or a certified athletic trainer working in conjunction with a physician licensed to practice medicine in all its branches in Illinois.
 3. Require that all high school coaching personnel, including the head and assistant coaches, and athletic directors obtain online concussion certification by completing online concussion awareness training in accordance with 105 ILCS 25/1.15.
 4. Require all student athletes to view the Illinois High School Association's video about concussions.
 5. Inform student athletes and their parents/guardians about this policy in the *Agreement to Participate* or other written instrument that a student athlete and his or her parent/guardian must sign before the student is allowed to participate in a practice or interscholastic competition.
 6. Provide coaches and student athletes and their parents/guardians with educational materials from the Illinois High School Association regarding the nature and risk of concussions and head injuries, including the risks inherent in continuing to play after a concussion or head injury.
 7. Include a requirement for staff members to notify the parent/guardian of a student who exhibits symptoms consistent with that of a concussion.
 8. Include a requirement for staff members to distribute the Ill. Dept. of Public Health concussion brochure to any student or the parent/guardian of a student who may have sustained a concussion, regardless of whether or not the concussion occurred while the student was participating in an interscholastic athletic activity, if available.
 9. Include a requirement for certified athletic trainers to complete and submit a monthly report to the Illinois High School Association on student-athletes who have sustained a concussion during: 1) a school-sponsored activity overseen by the athletic trainer; or 2) a school-sponsored event of which the athletic director is made aware.

Student Support Services

The District provides a liaison to facilitate the enrollment and transfer of records of students in the legal custody of the Ill. Dept. of Children and Family Services when enrolling in or changing schools.

The following student support services may be provided by the School District:

1. Health services supervised by a qualified school nurse. The Superintendent or designee may implement procedures to further a healthy school environment and prevent or reduce the spread of disease.
2. Educational and psychological testing services and the services of a school psychologist as needed. In all cases, written permission to administer a psychological examination must be obtained from a student's parent(s)/guardian(s). The results will be given to the parent(s)/guardian(s), with interpretation, as well as to the appropriate professional staff.
3. The services of a school social worker. A student's parent/guardian must consent to regular or continuing services from a social worker.
4. Guidance and school counseling services.

The Superintendent or designee shall develop protocols for responding to students with social, emotional, or mental health needs that impact learning ability. The District, however, assumes no liability for preventing, identifying, or treating such needs.

Erin's Law Counseling Options, Assistance, and Intervention

The Superintendent or designee will ensure that each school building's Student Support Committee identifies counseling options for students who are affected by sexual abuse, and grooming behaviors, along with District and community-based options for victims of sexual abuse and grooming behaviors to obtain assistance and intervention. Community-based options must include a Children's Advocacy Center and sexual assault crisis center(s) that serve the District, if any.

This policy shall be implemented in a manner consistent with State and federal laws, including the Individuals with Disabilities Education Act, 42 U.S.C. §12101 et seq.

Suicide and Depression Awareness and Prevention

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important Board goals.

Suicide and Depression Awareness and Prevention Program

This program must be consistent with the requirements of Ann Marie's Law listed below; each listed requirement, 1-6, corresponds with the list of required policy components in the School Code Section 5/2-3.166(c)(2)-(7). The Program shall include:

Illinois Suicide Prevention Strategic Planning Committee

The Superintendent or designee shall attempt to develop a relationship between the District and the Illinois Suicide Prevention Strategic Planning Committee, the Illinois Suicide Prevention Coalition Alliance, and/or a community mental health agency. The purpose of the relationship is to discuss how to incorporate the goals and objectives of the Illinois Suicide Prevention Strategic Plan into the District's Suicide Prevention and Depression Awareness Program.

The District, Board, and its staff are protected from liability by the Local Governmental and Governmental Employees Tort Immunity Act. Services provided pursuant to this policy: (1) do not replace the care of a physician licensed to practice medicine in all of its branches or a licensed medical practitioner or professional trained in suicide prevention, assessments and counseling services, (2) are strictly limited to the available resources within the District, (3) do not extend beyond the school day and/or school-sponsored events, and (4) cannot guarantee or ensure the safety of a student or the student body.

Child Sexual Abuse

State legislation was enacted that requires the inclusion of an evidence-informed age-appropriate curriculum for students in Pre-Kindergarten through 12th grade regarding sexual abuse. Parents/guardians of students in any of grades K through 8 will be provided written notice at least five days before commencing any class or course providing instruction in recognizing and avoiding sexual abuse, as well as the opportunity to object in writing. A copy of the Board Policy 4:165: Awareness and Prevention of Child Sexual Abuse and Grooming Behavior policy is available on the district website.

According to RAINN.org, child sexual abuse is a form of child abuse that includes sexual activity with a minor. A child cannot consent to any form of sexual activity, period. When a perpetrator engages with a child this way, they are committing a crime that can have lasting effects on the victim for years. Some forms of child sexual abuse include but are not limited to:

- Exhibitionism, or exposing oneself to a minor
- Fondling
- Intercourse
- Masturbation in the presence of a minor or forcing the minor to masturbate
- Obscene conversations, phone calls, text messages, or digital interaction
- Producing, owning, or sharing pornographic images or movies of children
- Sex of any kind with a minor, including vaginal, oral, or anal
- Sex trafficking

- Any other contact of a sexual nature that involves a minor.

Grooming is committed when a person knowingly uses a computer on-line service, Internet service, local bulletin board service, or any other device capable of electronic data storage or transmission, performs an act in person or by conduct through a third party, or uses written communication to seduce, solicit, lure, or entice, or attempt to seduce, solicit, lure, or entice, a child under 17 years of age, a child's guardian, or another person believed by the person to be a child or a child's guardian, to commit any sex offense as defined in Section 2 of the Sex Offender Registration Act, to distribute photographs depicting the sex organs of the child, or to otherwise engage in any unlawful sexual conduct with a child or with another person believed by the person to be a child.

Children often show us rather than tell us that something is upsetting them. There may be many reasons for changes in their behavior, but if we notice a combination of worrying signs, it may be time to call for help or advice.

The following warning signs of possible sexual abuse have been taken from <https://www.erinslaw.org>

Warning Signs of an Abused Child

- Nightmares
- Trouble sleeping
- Bed wetting
- Change in appetite
- Fear of certain people, places, activities
- Mood swings: Rage, Anger, Fear, anxiety, insecure or withdrawn
- Depression
- Aggression
- Feeling shameful or guilty
- Isolating oneself
- Withdrawal from someone
- Resisting removing clothes when appropriate times (bedtime, bath time)
- Change in academics
- Running away from home
- Suicidal thoughts
- Acting out sexually
- Exhibits adult sexual behaviors, knowledge, and language.

Signs more common in Adolescents

- Eating Disorders
- Self-Injury
- Drug and Alcohol Abuse
- Promiscuous activity
- Running away
- Suicidal
- Depression and Anxiety
- Fear
- Academic problems

Signs of an adult who may be sexually abusing your child

- Giving a child special attention
- Trying to spend a lot of time alone with a child

- Buying child expensive gifts or giving them money
- Treating a child as a “favorite” from other children
- Physical affection towards child: Kissing, hugging, holding hands, or wanting to be very close to a child.

Any one sign doesn't mean that a child was or is being sexually abused, but the presence of several suggests that you should begin to ask questions and consider seeking help. Keep in mind that some of these signs can emerge at other times of stress such as:

- During a divorce
- Death of a family member or pet
- Problems at school or with friends
- Other anxiety-inducing or traumatic events

Physical warning signs: Physical signs of sexual abuse are rare; however, if you see these signs, take your child to a doctor. Your doctor can help you understand what may be happening and test for sexually transmitted diseases.

- Pain, discoloration, bleeding or discharges in genitals, anus or mouth
- Persistent or recurring pain during urination and bowel movements
- Wetting and soiling accidents unrelated to toilet training

If a child discloses abuse

- Listen to the child
- Let them know they did the right thing by telling
- Tell them this is not their fault
- Say you believe them
- Let child know they are safe now and won't be hurt again
- Report abuse immediately to the police

If you suspect that a child is a victim of sexual abuse, please report it immediately. A sexual assault of a child is a criminal act. Contact the Department of Children and Family Services at 800-252-2873 and your local police department.

Call 911 for police and/or paramedic assistance if the situation is an emergency. An emergency is a situation where a child faces an immediate risk of assault that could result in death or serious harm.

Awareness and Prevention of Child Sexual Abuse and Grooming Behaviors

Child sexual abuse and grooming behaviors harm students, their parents/guardians, the District's environment, its school communities, and the community at large, while diminishing a student's ability to learn. The Board has a responsibility and obligation to increase awareness and knowledge of: (1) issues regarding child sexual abuse, (2) likely warning signs that a child may be a victim of sexual abuse, (3) grooming behaviors related to child sexual abuse and grooming, (4) how to report child sexual abuse, (5) appropriate relationships between District employees and students based upon State law, and (6) how to prevent child sexual abuse.

To address the Board's obligation to increase awareness and knowledge of these issues, prevent sexual abuse of children, and define prohibited grooming behaviors, the Superintendent or designee shall implement an Awareness and Prevention of Sexual Abuse and Grooming Behaviors Program. The Program will:

1. Educate students with:
 - a. An age-appropriate and evidence-informed health and safety education curriculum that includes methods for how to report child sexual abuse and grooming behaviors to authorities, through policy 6:60, Curriculum Content;
 - b. Information in policy 7:250, Student Support Services, about: (i) District counseling options, assistance, and intervention for students who are victims of or affected by sexual abuse, and (ii) community-based Children's Advocacy Centers and sexual assault crisis centers and how to access those serving the District.
2. Train District employees about child sexual abuse and grooming behaviors by January 31 of each school year with materials that include:
 - a. A definition of prohibited grooming behaviors and employee-student boundary violations pursuant to policy 5:120, Employee Ethics; Code of Professional Conduct; and Conflict of Interest;
 - b. Evidence-informed content on preventing, recognizing, reporting, and responding to child sexual abuse, grooming behaviors, and employee-student boundary violations pursuant to policies 2:260, Uniform Grievance Procedure; 2:265, Title IX Sexual Harassment Grievance Procedure; 5:90, Abused and Neglected Child Reporting; 5:100, Staff Development Program; and 5:120, Employee Ethics; Code of Professional Conduct; and Conflict of Interest; and
 - c. How to report child sexual abuse, grooming behaviors, and/or employee student boundary violations pursuant to policies 2:260, Uniform Grievance Procedure; 2:265, Title IX Sexual Harassment Grievance Procedure; and 5:90, Abused and Neglected Child Reporting.
3. Provide information to parents/guardians in student handbooks about the warning signs of child sexual abuse, grooming behaviors, and employee-student boundary violations with evidence-informed educational information that also includes:
 - h. Assistance, referral, or resource information, including how to recognize grooming behaviors, appropriate relationships between District employees and students based upon policy 5:120, Employee Ethics; Code of Professional Conduct; and Conflict of Interest, and how to prevent child sexual abuse from happening;
 - i. Methods for how to report child sexual abuse, grooming behaviors, and/or employee-student boundary violations to authorities; and
 - j. Available counseling and resources for children who are affected by sexual abuse, including both emotional and educational support for students affected by sexual abuse, so that the student can continue to succeed in school pursuant to policy 7:250, Student Support Services.
4. Provide parents/guardians of students in any of grades K through 8 with not less than five days' written notice before commencing any class or course providing instruction in recognizing and avoiding sexual abuse, as well as the opportunity to object in writing.

Records

Access to District Public Records

Full access to the District's public records is available to any person as provided in the Illinois Freedom of Information Act (FOIA), this policy, and implementing procedures. The Superintendent or designee shall: (1) provide the Board with sufficient information and data to permit the Board to monitor the District's compliance with FOIA and this policy, and (2) report any FOIA requests during the Board's regular meetings along with the status of the District's response.

Freedom of Information Officer

The Board will appoint an employee to serve as the District's Freedom of Information Officer. That appointee assumes all the duties and powers of that office as provided in FOIA and this policy.

Definition

The District's public records are defined as records, reports, forms, writings, letters, memoranda, books, papers, maps, photographs, microfilms, cards, tapes, recordings, electronic data processing records, electronic communications, recorded information and all other documentary material pertaining to the transaction of public business, regardless of physical form or characteristics, having been prepared by or for, or having been or being used by, received by, in the possession of, or under the control of the School District.

Requesting Records

A request for inspection and/or copies of public records must be made in writing and may be submitted by personal delivery, mail, telefax, or email directed to the District's Freedom of Information Officer. Individuals making a request are not required to state a reason for the request other than to identify when the request is for a commercial purpose or when requesting a fee waiver. The Superintendent or designee shall instruct District employees to immediately forward any request for inspection and copying of a public record to the District's Freedom of Information Officer or designee.

Responding to Requests

The Freedom of Information Officer shall approve all requests for public records unless:

1. The requested material does not exist;
2. The requested material is exempt from inspection and copying by the Freedom of Information Act; or
3. Complying with the request would be unduly burdensome.

Within five business days after receipt of a request for access to a public record, the Freedom of Information Officer shall comply with or deny the request, unless the time for response is extended as specified in Section 3 of FOIA. The Freedom of Information Officer may extend the time for a response for up to 5 business days from the original due date. If an extension is needed, the Freedom of Information Officer shall: (1) notify the person making the request of the reason for the extension, and (2) either inform the person of the date on which a response will be made or agree with the person in writing on a compliance period.

The time periods are extended for responding to requests for records made for a commercial purpose, requests by a recurrent requester, or voluminous requests, as those terms are defined in Section 2 of FOIA. The time periods for responding to those requests are governed by Sections 3.1, 3.2, and 3.6 of FOIA.

When responding to a request for a record containing both exempt and non-exempt material, the Freedom of Information Officer shall redact exempt material from the record before complying with the request.

Fees

Persons making a request for copies of public records must pay any and all applicable fees. The Freedom of Information Officer shall establish a fee schedule that complies with FOIA and this policy and is subject to the Board's review. The fee schedule shall include copying fees and all other fees to the maximum extent they are permitted by FOIA, including without limitation, search and review fees for responding to a request for a commercial purpose and fees, costs, and personnel hours in connection with responding to a voluminous request.

Copying fees, except when fixed by statute, shall be reasonably calculated to reimburse the District's actual cost for reproducing and certifying public records and for the use, by any person, of its equipment to copy records. In no case shall the copying fees exceed the maximum fees permitted by FOIA. If the District's actual copying costs are equal to or greater than the maximum fees permitted by FOIA, the Freedom of Information Officer is authorized to use FOIA's maximum fees as the District's fees. No copying fees shall be charged for: (1) the first 50 pages of black and white, letter or legal sized copies, or (2) electronic copies other than the actual cost of the recording medium, except if the response is to a voluminous request, as defined in FOIA.

A fee reduction is available if the request qualifies under Section 6 of FOIA. The Freedom of Information Officer shall set the amount of the reduction taking into consideration the amount of material requested and the cost of copying it.

Provision of Copies and Access to Records

A public record that is the subject of an approved access request will be available for inspection or copying at the District's administrative office during regular business hours, unless other arrangements are made by the Freedom of Information Officer. Many public records are immediately available from the District's website including, but not limited to, the process for requesting a public record. The Freedom of Information Officer shall direct a requester to the District's website if a requested record is available there. If the requester is unable to reasonably access the record online, he or she may resubmit the request for the record, stating his or her inability to reasonably access the record online, and the District shall make the requested record available for inspection and copying as otherwise provided in this policy.

Preserving Public Records

Public records, including email messages, shall be preserved and cataloged if: (1) they are evidence of the District's organization, function, policies, procedures, or activities, (2) they contain informational data appropriate for preservation, (3) their retention is required by State or federal law, or (4) they are subject to a retention request by the Board Attorney (e.g., a litigation hold), District auditor, or other individual authorized by the School Board or State or federal law to make such a request. Unless its retention is required as described in items numbered 3 or 4 above, a public record, as defined by the Illinois Local Records Act, may be destroyed when authorized by the Local Records Commission.

Directory Information

"Directory information" may be released to the general public, unless a parent requests otherwise. The District has designated the following information as directory information:

- Student's name, address, grade level, birth date and place; parents'/guardians' names, addresses, email addresses, and telephone numbers;
- Academic awards, degrees and honors; information relating to school-sponsored activities, organizations and athletics; major field of study; and period of attendance in the school and District.

The District also has designated as directory information:

- Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs.

Please note that high school yearbooks are posted on the high school's website five (5) years after the yearbook is issued. Any parent who wishes to request that any or all such information not be released should complete a Directory Information Response Form within the first two weeks of each school year.

The Directory Information Response Form may be obtained from the office of the Assistant Superintendent for Student Services. No photograph highlighting individual faces will be used for commercial purposes (including solicitation, advertising, promotion or fundraising) without prior, specific, dated and written consent of parent/guardian, or student, as applicable.

The following shall not be designated as directory information:

- An image on a school security video recording, student social security number, or student identification or unique student identifier.

A parent/guardian may ask the District not to release directory information by submitting a written request to the student's school, addressed to the principal within the first two (2) weeks of the school term.

Persons, Agencies or Organizations Having Access to Student Records without Parent Consent

1. Access to student records without parental consent is afforded to school or School District officials with a legitimate educational or administrative interest regarding the student. A school or School District official is a person employed by the School District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; or a person or company with whom the School District has contracted to perform a special task (including but not limited to attorneys, auditors, medical consultants, therapists, data analysis/reporting firms, and Google Apps for Education). A school or School District official has a legitimate educational or administrative interest if the official needs to review a student record in order to fulfill his/her professional responsibility or to provide the contracted service (as applicable).
2. The District may also release student records without parental consent in accordance with the exceptions set forth in Section 6 of the Illinois School Student Records Act.

Student and Family Privacy Rights

Surveys

All surveys requesting personal information from students, as well as any other instrument used to collect personal information from students, must advance or relate to the District's educational objectives as identified in policy 6:10, Educational Philosophy and Objectives, or assist students' career choices. This applies to all surveys, regardless of whether the student answering the questions can be identified or who created the survey.

Surveys Created by a Third Party

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent(s)/guardian(s) may inspect the survey or evaluation, upon their request and within a reasonable time of their request.

This section applies to every survey: (1) that is created by a person or entity other than a District official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Survey Requesting Personal Information

School officials and staff members shall not request, nor disclose, the identity of any student who completes any survey or evaluation (created by any person or entity, including the District) containing one or more of the following items:

1. Political affiliations or beliefs of the student or the student's parent/guardian.
2. Mental or psychological problems of the student or the student's family.

7. Religious practices, affiliations, or beliefs of the student or the student's parent/guardian.
8. Income other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.

The student's parent(s)/guardian(s) may:

1. Inspect the survey or evaluation upon, and within a reasonable time of, their request, and/or
2. Refuse to allow their child to participate in the activity described above. The school shall not penalize any student whose parent(s)/guardian(s) exercised this option.

Instructional Material

A student's parent(s)/guardian(s) may inspect, upon their request, any instructional material used as part of their child's educational curriculum within a reasonable time of their request. The term "instructional material" means instructional content that is provided to a student, regardless of its format, printed or representational materials, audio-visual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

Physical Exams or Screenings

No school official or staff member shall subject a student to a non-emergency, invasive physical examination or screening as a condition of school attendance. The term "invasive physical examination" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but does not include a hearing, vision, or scoliosis screening.

The above paragraph does not apply to any physical examination or screening that:

1. Is permitted or required by an applicable State law, including physical examinations or screenings that are permitted without parental notification.
2. Is administered to a student in accordance with the Individuals with Disabilities Education Act (20 U.S.C. §1400 et seq.).
3. Is otherwise authorized by Board policy.

Prohibition on Selling or Marketing Students' Personal Information

No school official or staff member shall market or sell personal information concerning students (or otherwise provide that information to others for that purpose). The term "personal information" means individually identifiable information including: (1) a student or parent's first and last name, (2) a home or other physical address (including street name and the name of the city or town), (3) a telephone number, (4) a Social Security identification number or (5) driver's license number or State identification card.

Unless otherwise prohibited by law, the above paragraph does not apply: (1) if the student's parent(s)/guardian(s) have consented; or (2) to the collection, disclosure or, use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

1. College or other postsecondary education recruitment, or military recruitment.
2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools.
4. Tests and assessments to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments.
5. The sale by students of products or services to raise funds for school-related or education-related activities.
6. Student recognition programs.

Under no circumstances may a school official or staff member provide a student's "personal information" to a business organization or financial institution that issues credit or debit cards.

Notification of Rights and Procedures

The Superintendent or designee shall notify students' parents/guardians of:

1. This policy as well as its availability upon request from the general administration office.
2. How to opt their child out of participation in activities as provided in this policy.
3. The approximate dates during the school year when a survey requesting personal information, as described above, is scheduled or expected to be scheduled.
4. How to request access to any survey or other material described in this policy.

This notification shall be given to parents/guardians at least annually, at the beginning of the school year, and within a reasonable period after any substantive change in this policy.

Transfer of Rights

The rights provided to parents/guardians in this policy transfer to the student when the student turns 18 years old, or is an emancipated minor.

Student Records

School student records are confidential. Information from them shall not be released other than as provided by law. A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction by a school employee, regardless of how or where the information is stored, except as provided in State or federal law as summarized below:

1. Records kept in a staff member's sole possession.
2. Records maintained by law enforcement officers working in the school.

3. Video and other electronic recordings (including without limitation, electronic recordings made on school buses) that are created in part for law enforcement, security, or safety reasons or purposes. The content of these recordings may become part of a school student record to the extent school officials create, use, and maintain this content, or it becomes available to them by law enforcement officials, for disciplinary or special education purposes regarding a particular student.
4. Any information, either written or oral, received from law enforcement officials concerning a student less than the age of 18 years who has been arrested or taken into custody.

State and federal law grants students, parents/guardians, and when applicable, the Ill Dept. of Children and Family Services' Office of Education and Transition Services, certain rights, including the right to inspect, copy, and/or challenge school student records. The information contained in school student records shall be kept current, accurate, clear, and relevant. All information maintained concerning a student receiving special education services shall be directly related to the provision of services to that child. The District may release directory information as permitted by law, but a parent/guardian shall have the right to opt-out of the release of directory information regarding his or her child. The District will comply with State or federal law with regard to release of a student's school records, including, where applicable, without notice to, or the consent of, the student's parent/guardian or eligible student.

The Superintendent shall fully implement this policy and designate an *official records custodian* for each school who shall maintain and protect the confidentiality of school student records, inform staff members of this policy, and inform students and their parents/guardians of their rights regarding school student records.

Family Education Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA gives parents certain rights with respect to their children's education records. These rights transfer to the student when he or she reaches the age of 18 or attends a school beyond the high school level. Students to whom the rights have transferred are "eligible students."

- Parents or eligible students have the right to inspect and review the student's education records maintained by the school. Schools are not required to provide copies of records unless, for reasons such as great distance, it is impossible for parents or eligible students to review the records. Schools may charge a fee for copies.
- Parents or eligible students have the right to request that a school correct records which they believe to be inaccurate or misleading. If the school decides not to amend the record, the parent or eligible student then has the right to a formal hearing. After the hearing, if the school still decides not to amend the record, the parent or eligible student has the right to place a statement with the record setting forth his or her view about the contested information.
- Generally, schools must have written permission from the parent or eligible student in order to release any information from a student's education record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
 - School officials with legitimate educational interest;
 - Other schools to which a student is transferring;
 - Specified officials for audit or evaluation purposes;
 - Appropriate parties in connection with financial aid to a student;
 - Organizations conducting certain studies for or on behalf of the school;
 - Accrediting organizations;
 - To comply with a judicial order or lawfully issued subpoena;
 - Appropriate officials in cases of health and safety emergencies; and
 - State and local authorities, within a juvenile justice system, pursuant to specific State law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

Accommodating Individuals with Disabilities

Individuals with disabilities shall be provided an opportunity to participate in all school-sponsored services, programs, or activities and will not be subject to illegal discrimination. When appropriate, the District may provide to persons with disabilities aids, benefits, or services that are separate or different from, but as effective as, those provided to others.

The District will provide auxiliary aids and services when necessary to afford individuals with disabilities equal opportunity to participate in or enjoy the benefits of a service, program, or activity.

Each service, program, website or activity operated in existing facilities shall be readily accessible to, and useable by, individuals with disabilities. New construction and alterations to facilities existing before January 26, 1992, will be accessible when viewed in their entirety.

The Superintendent or designee is designated the Title II Coordinator and shall:

1. Oversee the District's compliance efforts, recommend necessary modifications to the School Board, and maintain the District's final Title II self-evaluation document and keep it available for public inspection for at least three years after its completion date.
2. Institute plans to make information regarding Title II's protection available to any interested party.

Individuals with disabilities should notify the Superintendent or Building Principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

Individuals with disabilities may allege a violation of this policy or federal law by reporting it to the Superintendent or designated Title II Coordinator, or by filing a grievance under the Uniform Grievance Procedure.

Annual Notification Regarding School District Access to Medicaid or Other Public Benefits or Insurance Programs to Provide or Pay for IEP Services

1. With a parent's consent, the School District may access Medicaid or other public benefits or insurance programs in which the parent's child participates, and provide the child's personally identifiable information to Medicaid or other public benefits or insurance programs in order to provide or pay for IEP services, to the extent permitted under the other public benefits or insurance programs;
2. The School District may not require a parent to sign up for or enroll in public benefits or insurance programs in order for the parent's child to receive IEP services;
3. The School District may not require the parent to incur out-of-pocket expenses such as the payment of a deductible or co-pay amount incurred in filing a claim for services, other than any cost that the parent would otherwise be required to pay;
4. The School District may not use a child's benefits under a public benefits or insurance program if that use would decrease available lifetime coverage or any other insured benefit; or result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the child outside of the time

he/she is in school; or increase premiums or lead to the discontinuation of benefits or insurance; or risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures;

5. A parent's refusal to allow the School District to access Medicaid or other public benefits or insurance programs does not relieve the District of its responsibility to ensure that all required IEP services are provided to the child at no cost to the parent. Likewise, the withdrawal of consent or refusal to provide consent under 34 C.F.R. Part 99 and Part 300 to disclose personally identifiable information to Medicaid or other public benefits or insurance programs does not relieve the School District of its responsibility to ensure that all required services are provided at no cost to the child.
6. A parent has the right under 34 C.F.R. Part 99 and Part 300 to withdraw his/her consent to access Medicaid or other public benefits or insurance programs and/or to disclose his/her child's personally identifiable information to Medicaid or other public benefits or insurance programs at any time.

Education of Children with Disabilities

The School District shall provide a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the District, as required by the Individuals With Disabilities Education Act (IDEA) and implementing provisions of the School Code, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. The term "children with disabilities," as used in this policy, means children between ages 3 and 21 (inclusive) for whom it is determined, through definitions and procedures described in the Illinois State Board of Education's *Special Education* rules, that special education services are needed. Children with disabilities who turn 22 years old during the school year are eligible for such services through the end of the school year.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the Illinois State Board of Education's *Special Education* rules. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students' identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student's parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student's parent(s)/guardian(s), representation by counsel, and a review procedure.

The District may maintain membership in one or more cooperative associations of school districts that shall assist the District in fulfilling its obligations to the District's students with disabilities.

If necessary, students may also be placed in nonpublic special education programs or education facilities.

Misconduct by Students with Disabilities

Behavioral Interventions

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The School Board will establish

and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities.

Discipline of Special Education Students

The District shall comply with the Individuals With Disabilities Education Improvement Act of 2004 and the Illinois State Board of Education's *Special Education* rules when disciplining special education students. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability.

Transportation

Bus Conduct

All students must follow the District's *School Bus Safety Rules*.

School Bus Suspensions

The Superintendent, or any designee as permitted in the School Code, is authorized to suspend a student from riding the school bus for up to 10 consecutive school days for engaging in gross disobedience or misconduct, including but not limited to, the following:

1. Prohibited student conduct as defined in School Board policy, 7:190, *Student Behavior*.
2. Willful injury or threat of injury to a bus driver or to another rider.
3. Willful and/or repeated defacement of the bus.
4. Repeated use of profanity.
5. Repeated willful disobedience of a directive from a bus driver or other supervisor.
6. Such other behavior as the Superintendent or designee deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The District's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

Academic Credit for Missed Classes During School Bus Suspension

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student's parent or guardian to notify the school that the student does not have alternate transportation.

Electronic Recordings on School Buses

Electronic visual and audio recordings may be used on school buses to monitor conduct and to promote and maintain a safe environment for students and employees when transportation is provided for any school related activity. Notice of electronic recordings shall be displayed on the exterior of the vehicle's entrance door and front interior bulkhead in compliance with State law and the rules of the Illinois Department of Transportation, Division of Traffic Safety.

Students are prohibited from tampering with electronic recording devices. Students who violate this policy shall be disciplined in accordance with the Board's discipline policy.

Ride-Sharing Services

For safety reasons, students are not permitted to use ride-sharing services (for example, Uber or Lyft) for transportation to/from school or school activities. In the event that school officials become aware that a ride-sharing vendor is present on school grounds to pick up a student, the student will not be released to the vendor and the student's parent/guardian will be contacted to pick up the student.

Transportation

The District shall provide free transportation for any student in the District who resides: (1) at a distance of one and one-half miles or more from his or her assigned school, unless the School Board has certified to the Illinois State Board of Education that adequate public transportation is available, or (2) if adequate public transportation is not available, within one and one-half miles

from his or her assigned school where walking to or from school or to or from a pick-up point or bus stop would constitute a serious safety hazard due to either (a) vehicular traffic or rail crossing or (b) a course or pattern of criminal activity, as defined in the Ill. Street gang Terrorism Omnibus Prevention Act, 740 ILCS 147/. A student's parent(s)/guardian(s) may file a petition with the Board requesting transportation due to the existence of a serious safety hazard. Free transportation service and vehicle adaptation is provided for a special education student if included in the student's individualized educational program. Non-public school students shall be transported in accordance with State law. Homeless students shall be transported in accordance with Section 45/1-15 of the Education for Homeless Children Act. Foster care students shall be transported in accordance with Section 6312(c)(5)(B) of the Elementary and Secondary Education Act.

Bus schedules and routes shall be determined by the Director of Support Services and shall be altered only with the Director of Support Services approval and direction. In setting the routes, the pick-up and discharge points should be as safe for students as possible.

No school employee may transport students in school or private vehicles unless authorized by the administration.

Every vehicle regularly used for the transportation of students must pass safety inspections in accordance with State law and Illinois Department of Transportation regulations. The strobe light on a school bus may be illuminated only when the bus is actually being used as a school bus and (1) is stopping or stopped for loading or discharging students on a highway outside an urban area, or (2) is bearing one or more students.

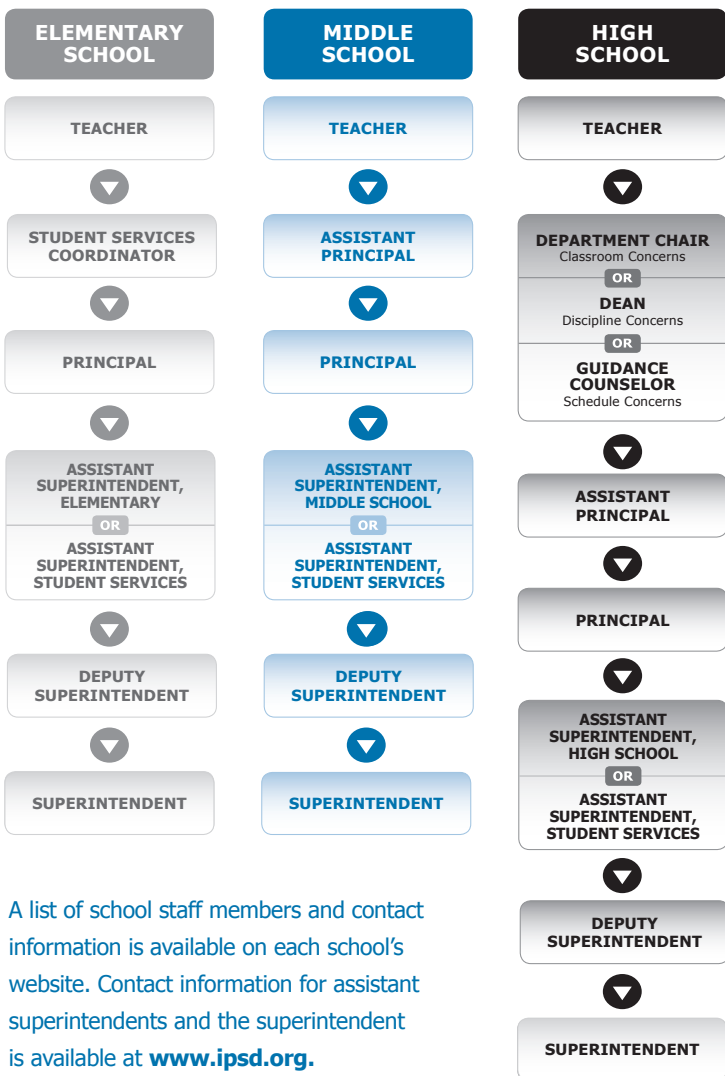

All contracts for charter bus services must contain the clause prescribed by State law regarding criminal background checks for bus drivers.

Pre-Trip and Post-Trip Vehicle Inspection

The Superintendent or designee shall develop and implement a pre-trip and post-trip inspection procedure to ensure that the school bus driver: (1) tests the two-way radio or cellular radio telecommunication device and ensures that it is functioning properly before the bus is operated, and (2) walks to the rear of the bus before leaving the bus at the end of each route, work shift, or work day, to check the bus for children or other passengers in the bus.

WHERE TO GO IF YOU HAVE A CONCERN

Generally speaking, questions or concerns should first be discussed with the staff member who is closest to the situation. It is always best to follow the chain of command to ensure that all parties involved are properly informed of the situation. Parents should expect a response from the staff person listed, or his or her designee, within one business day to discuss their concern.

A list of school staff members and contact information is available on each school's website. Contact information for assistant superintendents and the superintendent is available at www.ipsd.org.
