Unbalanced budget; however, a Deficit Reduction Plan is not required at this time.

A deficit reduction plan is required if the local board of education adopts (or amends) the 2024-202! school district budget in which the "operating funds' listed above result in direct revenues (line 9, BudgetSum 2-4) being less than direct expenditures (line 19, BudgetSum 2-4) by an amount equal to or greater than one-third (1/3) of the ending fund balance (line 81, BudgetSum 2-4).

Note: The balance is determined using only the four funds listed above. That is, if the estimated ending fund balance is less than three times the deficit spending, the district must adopt and file with ISBE a deficit reduction plan to balance the shortfall within three years.

Per School Code (105 ILCS 5/17-1) - If the Deficit AFR Summary Information tab from the 2023-2024 Annual Financial Report (AFR) reflects a deficit as defined above, then the school district shall adopt and submit a deficit reduction plan (found here on page 23-27) to ISBE within 30 days after acceptance of the AFR.

The deficit reduction plan, if required, is developed using ISBE guidelines and format.

Evidence-Based Funding: Fiscal Year 2025 Spending Plan

N/A - EBF Spending Plan Not Required for Amended Budgets

Part I: Achieving Student Growth and Making Progress Toward State Education Goals

The questions below allow you to indicate the strategic priorities and strategies that will drive your efforts to achieve student growth and make progress toward state education goals. These may involve investing in any combination of an Organizational Unit's core resources time, money, people, and programs.

Collaboration Opportunity - Organizational Units may find that Part I is most easily and effectively completed if led by program leaders in consultation with finance leaders.

1) What are the Organizational Unit's strategic goals for student success for the 2024-25 school year? What measures will be used to evaluate progress? (No more than 2000 characters, including spaces.)

The District has a comprehensive five year strategic plan which clearly outlines our plans for student success. The full document is through the IPSD.org website. As EBF represents less than 10% of total district revenues, and Tier funding has not kept up with recent increases in the consumer price index (CPI), our priorities will be accomplished using other revenue sources. The District hopes that one day EBF funding will be sufficient to close our funding gap when compared to Tier 3 and Tier 4 districts, and allow for State funds to have a meaningful impact as we work towards our strategic goals. In the meantime, we will use additional Tier funds to cover a portion of the incremental investments we are making in core investments and per student investments.

	Top Strategy 1	Top Strategy 2	Top Strategy 3
Select the top three strategies that the Organizational Unit will employ to achieve student growth and make progress toward state education goals. (Select three different responses from the dropdown list.) 2)	Maintain or decrease class sizes	Maintain or expand early childhood programming	Improve programs, curriculum, and/or learning tools
If "Other" was selected in question 2, please describe. (No more than 1000 characters, including spaces.)			

Part II: Planned Use of Evidence-Based Funding

The questions below provide an opportunity to document the stakeholders with whom you consulted and the data you analyzed as you determined your strategic allocations of FY 2025 EBF dollars. Key statistics related to EBF distributions are provided for your reference. Form 50-36/50-39 is typically released before current-year appropriations are known. Therefore, the figures provided are for the prior fiscal year.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed if led by finance leaders in consultation with program leaders.

Part III: Support for Special Student Groups

EBF statute sets aside specific allocations to be spent for special education, English learners, and low-income students. Per statue these designated funds must be spent on programs and services benefiting these specific student groups. Funds for English learners and low-income students must be spent in addition to, and not in lieu of, funding that supports general programs of instruction for all students. Funds attributable to special education must be used for the provision of special education facilities and services as outlined in ILCS 14-1.08 Current-year EBF amounts attributable to each of the special student groups must be reported in cells G100-G102 below. If the Organizational Unit received at least \$5,000 for any of the student groups, a response to the questions below is required. For amounts less than \$5,000, a response is optional. All other EBF funds may be spent in any manner deemed appropriate by the school district.

Collaboration Opportunity - Organizational Units may find that questions in this section are most easily and effectively completed through collaboration between program leaders affiliated with each student group and finance leaders.
